Moleskine is a brand that identifies a family of notebooks, diaries and city guides: flexible and brilliantly simple tools for use both in everyday and extraordinary circumstances, ultimately becoming an integral part of one's personality.

I was a little worried when I first saw this book because I was not sure if it could use it. But when it arrived at my doorstep I was happy to see not only could I use it but I could use it in my future

travels overseas. I am Hoping to use this book to be able to learn more about the great Nation of Japan but also about the City of Kyoto.

This was a must-have during my trip!!! Maps are sooooo useful and pockets came in handy when I didn't want to loose tickets.

Great product. Very very useful for our week in Kyoto. Used it to take notes during our trip and the subway map was extrememly useful. We also used the blank pages in the back to collect the signatures from the Temples and castles we visited.

The Kyoto notebook is a small moleskine hardcover notebook with a number of unique pages bound in. The public transport maps are particularly convenient.
