• Booklist “A harrowing tale of survival ... A page-turner that will have readers watching where they step and looking up into trees, long after the slithering and

snorting end. "A fast-paced adventure traces 13-year-old Cort's daring attempt to keep two neighbor girls alive during a hurricane ... Key brings to life the eerie quality of the Alabama swampland and the hidden dangers that lurk around every corner. Short, cliffhanger chapters will keep even the most reluctant readers engrossed." Watt Key lives in southern Alabama with his family, near the swamp where this story takes place. His debut novel, *Alabama Moon*, was named to Time Magazine's list of the Best Hundred YA Books of All Time. *Terror at Bottle Creek* is his fourth book.

My son hated this book. I read (scanned) it and I found it to be interesting enough. The problem is that this book is aimed at an audience of new teenagers (13+) and I think it is too cerebral and full of adult nuances to appeal a 13year old. My son did enjoy the drama where terror is in the form of a wild boar.

Nice book. This was on the sunshine state reading list and I was forced to read it but its worth my time.

Thirteen-year-old Cort, his friend Liza and her younger sister Francie are all alone when the hurricane comes. There are no adults for help or guidance when Francie disappears with Catfish, Cort's dog. The dog has returned to Cort's houseboat with Francie; the houseboat is free in the hurricane with the four of them on board. They head to the Mounds, old Indian grounds that are now a refuge for tons of poisonous snakes, wild hogs, other animals and a bear. The adventure is slow in building but really builds! Very satisfying with a great cast of characters.

Watt Key has written a nail-biting survival story with *Terror at Bottle Creek*. I flew through the book in a day because I had to know what happened to Cort, Liza, and Francie. Cort lives with his father along a creek in southern Alabama and a hurricane is on the way. As Cort and his father prepare for the storm, Cort wants his father to stop visiting his mother who left them some months before. He also thinks about Liza and asking her to an upcoming dance. But once the storm hits and Cort and the girls end up alone, survival takes priority. When Francie gets dragged out into the storm by Cort's dog and ends up stranded on Cort's family's houseboat, he can't leave her there, so he and

Liza take his father's boat and go after her. They end up stranded in the bayou with no shelter and rising floodwaters as well as rain and wind. As they head for higher ground, Cort worries about how he can keep himself and the girls alive, especially once it becomes evident that many animals are heading to the same high ground. Key does a fabulous job creating a powerful story of courage and determination as well as friendship and family. I thoroughly enjoyed this as a story of survival as well as growing up and carrying on in the face of seemingly impossible odds. This is a great book to give to children who enjoyed Hatchet by Gary Paulsen.

This book review is for the novel Terror at Bottle Creek by Watt Key. It was published January 5th, 2016, and has 213 pages. The setting of this story is a swamp town preparing for the worst when they find that Hurricane Igor is heading their way. Cort, a 13 year old boy, lives with his father and helps him run a river guide business. Their customers consist of tourists, and sometimes hunters who look for fresh land to hunt for alligators on. The main problem that Cort and his father have to deal with throughout the story, is the walking out of his mother. Cort's father is so distraught by this, that he directs his time mostly to getting his wife back rather than focusing on the river guide business. Cort has to try his best to get his dad to accept the loss rather than trying to fix the unfixable. Worse comes to worse when Cort's father finds himself in too much denial and continues to chase after his wife, and Cort suddenly finds himself responsible for the safety of two neighbor girls while they do everything in their ability to bear the storm. The girls, Liza, who is Cort's age, and Francie who is six, rely on Cort for protection since Liza suffers from a cottonmouth rattlesnake bite, and Francie is too young to fend for herself. Through all of these large cons that play a large role in the kid's safety, the storm is only yet to come. I thought that this book had a very good storyline to it, but it was written so oddly that it was hard to follow along at parts. Watt Key would type a simple sentence and then period. Sentence, then period. Sentence, then period. It's especially a problem for me, since I have the same problem, and I'm trying my best to avoid doing it as much as possible. But reading a book written with the same method kinda draws me back into that rut. My favorite part would definitely have to be towards the beginning when there's the introduction to the problem of Cort's mother being out, but the ferry business is still up and going. Reading about when things are slightly ok makes you feel comforted, and think that things will work out towards the end of the book. If I could change anything about the book, it would have to be the writing style. If the sentence fragments were maybe combined with commas at some points, it would be a lot easier for me to read. I'd recommend this book to anyone who likes a very
