Toenail Fungus Secret Weapons: Real Treatment Methods They Don't Want You To Know...

Synopsis

Use The 12+ "Secret Weapons" In This Book To Eliminate Toenail Fungus FAST. OR combine the toenail fungus treatments revealed in my book with any additional treatments you are already using and speed up your treatment time by up to 3 TIMES! Look: the fact of the matter is if you REALLY want to get clear healthy nails within 30-45 days you need to attack it with MULTIPLE treatments simultaneously to do real damage. See once the nail fungus becomes fortified under your nail using just only 1 toenail fungus treatment to attack your fungus isn't enough. That's why I created "Toenail Fungus Secret Weapons". In my book, I'm going to show you how to use powerful treatments that you can combine together to attack your nail fungus from multiple different angles...to see serious results and FAST. I jokingly say that the only thing that can kill toenail fungus is a nuclear explosion. And when you use the "secret weapons" revealed in my book...You'll now be able to drop an ATOMIC bomb on your nail and VAPORIZE every spec of it entirely. And before you even think about getting laser surgery removal try the treatment methods in my book. They can work just as fast sometimes faster and it won't cost you an arm and a leg in the process! Buy "Toenail Fungus Secret Weapons" now and treat your nail fungus the right way. And very possibly be able to show off your new healthy nails within 30-45 DAYS.

Customer Reviews

The book overall was a good read about an annoying problem. After experiencing this annoying condition I agree with the author...it's an on going fight. The book goes into pretty detailed explanations about treating your environment. I checked some of his recommended product reviews. VitaClear seems a 50-50 toss up between high 5 (excellent) to 1 (poor). When the product is a 50-50 toss up...I look to the poor product review people for more insight into why it didn't work. Toe nail fungus is no quick cure process or whenever you feel like treating it. I appreciate his dedication to the processes he has outlined to help get rid of the fungus. Thank you for your insights.

This was an interesting and very helpful book! The humor also was a nice touch. :-) My step-father has really bad toenail fungus and Dan Kopen has helped him get rid of it! I had no idea that there were all kinds of different home remedies and ways to rid your home of fungi. This book was short and to the point! There isn't just random, useless information in this book. My step-father loved this book and I enjoyed it too! I'm glad that I have it on my Kindle app because for one, I'll be able to get my environment (my home) to be dry enough so that toe fungi won't grow and two, I won't have to look up remedies online because I have the best remedies on my Kindle app! I highly recommend this book. It's worth the read and will save you money in the long run.

Very disappointed with this book, it mostly consists of advertising links and catchy phrases, should be distributed for free as a marketing brochure. It even went as far as suggesting a link for purchasing vinegar. Would not recommend! Same info, if not more, is available in the net.

What a waste of time. The book is filled with nothing but useless information and associate links to buy products he'll make money on. You can find better information for free on the internet without always being steered to purchase something.

I had a spot on my big toe that had been there for quite some time. I tried everything over the counter to get rid of it, but nothing worked. I bought this book as a last ditch effort before I spent a lot of money on a doctor's visit. I am so glad I did. Within just a few weeks of implementing the ideas I learned in this book, my toenail was back to normal, and I didn't have to cover it up with nail polish any longer.

Most reports say there is nothing that will cure toenail fungus and it's not harmful anyway. This book gave lots of good advise and where to buy each product. Much, much good advice.

It explains clearly and with how to handle the treatment. I would recomend this to everyone to read. Know the symptoms so you can treat right away.

This book is very disappointing. Its just a short brochure designed to sell kits via link. There is no substantial info here.
