House Of Robots: Robots Go Wild!

Synopsis

In book two of the House of Robots series, it's 'bot brains versus 'bot brawn in an all-out war! Sammy Hayes-Rodriguez and his "bro-bot" E are making new friends every day as E works as his bedridden sister Maddie's school proxy. But disaster strikes when E malfunctions just in time to be upstaged by the super-cool new robot on the block--and loses his ability to help Maddie. Now it's up to Sammy to figure out what's wrong with E and save his family!

Customer Reviews

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

Robots Go Wild!: House of Robots 2 Audible [f](#) [c](#) [â](#) [-â](#) [â](#) [œ](#) Unabridged James Patterson (Author), Chris Grabenstein (Author), Jack Patterson (Narrator), Juliana Neufeld - illustrator (Author), Hachette Audio (Publisher) This is the second book in the Robots Go Wild! Series. Once

again we meet up with Sammy and E. In the House of Robots E goes wild. Maddie is sick and cannot attend school. E goes in her place. There is a football game between 5 robots and a bunch of other robots. When a new robot shows up at school for a kid that has to stay home everything goes wrong for E, Sammy and the whole family. E is banned from school, Sammy's mom may be out of a job, his dad's novel may be canceled and Sammy must find a way to save the day. I love this series and think this one is better than book 1. Juliana Neufeld is a fantastic illustrator and Jack Patterson does a great job with the narration. I shared this book with my grandson and he loved it. He has listened to it three times now.

I bought this book to read along with my 9-year-old grandson, so that we could have literary discussions. It was a great book, and kept our interest throughout (both of us). The school year starts out great, with the robot E that Mom developed, who goes to school for Maddie. Maddie has an immune-deficiency disorder and cannot be exposed to germs. Mom is the head of her department at Notre Dame University. Dad works from home, and writes comic books. Due to declining sales, he has lost his contract, and needs to come up with a new series idea. Sammy is a 5th grader, and he enjoys the company of E, sort of like a robot brother, when Maddie is not using E for school. Then a new robot, SS-10K, comes to school for Neddy, Freddy, or Teddy (they can't seem to remember his name), who also allegedly has an immune-deficiency disorder. SS-10K infects E with a computer virus, which makes E go "crazy," and E wrecks things in the town and then at the college. Mom is forced to take time off from work, and is told to disable her robots. The news reporters criticize the family robots, and praise the new SS-10K. Sammy takes the leadership needed to find out why E had been acting up. I would love to tell you the ending of the book, but I will try to refrain!! This book has good character development, and a clear rising action to the climax, and falling action to the resolution. James Patterson is my grandson's favorite author at this time.

My grandson was so happy to receive this book. I read James Patterson mysteries and knew it would be a good book for him

My son hates reading. It's been a battle since kindergarten. James Patterson is the first author that enticed my son into reading on his own. He loves the books. This one, the middle school series. I love how these books are catering to boys! Such a great series!

Bought for my 10 year old son, he loves these books.

Verbatim from my 9 year old: This was the best best book I've ever read. You will like it because it shows you how life with robots could be. This book has similarities to my life with my brother. He has cancer and can get sick easily like Mattie. You should really read this book. And that is it. Thank you.

My son loved this book. (age 9)

daughter loves it--she has the first one as well and has read it multiple times.
