Doing It: Let's Talk About Sex

Synopsis

Figuring out how to build and maintain healthy relationships - with your family and friends, romantically and with yourself - is a crucial part of being a teen. Porn is everywhere, sexting is the norm and messages about body image are highly mixed. In *Doing It*, Hannah tackles all of this - everything from masturbation and puberty to slut shaming and consent. How do you know if you have a healthy relationship? Try the Wormtail test. How do you know what's going on 'down there'? Grab a mirror, and Hannah will tell you. Since uploading her first video to YouTube in 2011, Hannah has made over 50 videos talking about sex and relationships and now has this book! Unembarrassed and honest, she's the straight-talking big sister you wish you had.

Book Information

Audible Audio Edition

Listening Length: 5 hours 24 minutes

Customer Reviews

love hannah and this book was great!

This is a book for everyone, straight, gay, and anyone in between. Like her videos, Hannah does a great job at educating people and exposing us to new things while still being entertaining and enthusiastic. I would even go as far as to recommend this book be put in schools and offices all over the world. Well done, Hannah

Peppered with references to "allies" and other such things. If you want your child to become some gender activist this may be up your alley. If not, I would not suggest buying it. More than likely if you have raised your child well and they feel comfortable and happy with their home, this book will

probably be completely unnecessary anyway.

So so so good and so informative but very easy to read due to Hannah's writing style! I loved it.
