A New Concept Of The Universe

Synopsis

"The Russell Cosmogony with its new concepts of light, matter, energy, electricity and magnetism is a simple yet complete, consistent and workable cosmogony which will enable future scientists to visualize the universe as a unified whole, and will open the door to the New Age of Transmutation."

â "Walter Russell, â œAn Open Letter to the World of Science.â • Contents: A New Concept of the Universe; The Undivided Light; The Divided Light; This Electric Universe of Simulated Idea; Coulomb Law; The Electric Universe of Simulated Energy; The Duality of Electric Effect; Thought-Wave Universe; Polarity Periodicity; Magnetic Lines of Force; Law of Conservation of Energy; Thermodynamic Misconception; Inadequacy of Newtonâ™s Three Laws; Fallacy of Newtonâ™s Mathematics; Two Unknown Facts of Nature; Inadequacy of Keplerâ™s First Law; The Quantum Theory; Singly Charged Particles; Science Must Revolutionize Concept of Matter; The New Concept of Matter; Mystery of Magnetic Poles; Illusion of Three Dimensions; The Earth is Not a Magnet; Cathodes and Anodes; No Separate Particles; Curvature is Also Polarized; Conditions of Matter; Vibrating Matter; Growth & Decay; Octave Wave Cycle; Gyroscope Wheel; Expanding Systems; Oblating Spheres; Unbalanced Systems Wobble; Gravitation & Radiation; Nine-Octave Periodic Table of the Elements; Industryâ™s Creating Processes; Secret of Manâ™s Power; New Power for Science; Age of Transmutation; What of Tomorrow?

Book Information

File Size: 6594 KB

Print Length: 178 pages

Publisher: University of Science and Philosophy (February 1, 1953)

Publication Date: February 1, 1953

Sold by:Â Digital Services LLC

Language: English

ASIN: B006IGSR3M

Text-to-Speech: Enabled

Customer Reviews

Dr Russell's science modifies the Mendeleev periodic table into elements by light-wave pressures governed by spiral motion. The Bohr's atomic model is thrown out and replaced by spirals (galaxies, water running down the sink, hurricanes, and tornadoes all have spiral motion). Dr. Russell was so brilliant it was difficult for him to put his understanding in words for the non-scientist. Some paragraphs in this book are so dense with information that it takes several reads to get his meaning. Scientists need this science now.

Thank you; thank you very much

I can't believe I haven't come across this material until recently. Such an amazing and elegant book. A beautiful concept that will really uplift you.

Thank you very much for your cooperation!!

Book is a bit hard to follow. Read with an open mind and try to parallel existing understanding of things with the concepts presented.

Over and over Russell changes your view and perspective of the laws of the universe that most of us use for understanding. This book will rock your world and give you an insight into how it all works, that will change what you do, think and how it all works for you.

While I see how some of his message could be misunderstood, much of his works have been proven correct in modern times.

I think it's a wonderful book...a little more science than I like. The content is a bit deep, but all in all takes you to another level of thinking.
