Customer Reviews

DR. ROBERT G. BREENE III ("Spider Bob") is an arachnologist and entomologist living in Carlsbad, New Mexico. He has been the editor of the American Tarantula Society since 1991 and has written several books and hundreds of articles.

Easy to read and a great resource!

I read this book from start to finish before buying my first T and still reference it often. Not only did it help me decide what type of tarantula to get, but it also helped me to get ready to bring her home. It made the transition much easier for both of us. Highly recommend for those thinking about getting a T for a pet and for those brand new T owners.

This book was just what my son needed when he bought his spider. It is full of information that is easy to read and understand, especially for the first-time arachnid owner. All topics of tarantula care

are covered including feeding, habitat, molting, and general care of the tarantula. He read it from cover to cover and said it was very informative.

Helpful and in good shape!

This book I bought because I was in the process of buying my first tarantula. This book helped me decide what kind of enclosures to buy and is an invaluable reference on the anatomy of the tarantula. Very interesting reading!

Good information, but a bit generic. Recommend for any tarantula enthusiast wanting to start reading on the hobby. You will want to obtain more books that are more specific if you are going to really get into the hobby. A great initial book!

I am a novice tarantula lover, and found lots of useful information in this book. I especially like the descriptions of the different species.

My daughter got a tarantula for Christmas and also this book. It's a great reference, well organized and easy reading.
