The title of this book is a perfect description for what it offers! Though I am a lot older than the author's target audience, I found MUCH solace in reading it. A therapist recommended it during a very dark period and it was one of the few things that helped. I found it extremely helpful and encouraging as I tried to make sense of a life spinning out of control. Highly recommend this !

As a school mental health counselor, I've ordered many of these books to give to give to my Jr. High kiddos when they've experienced a loss to help them through their grief. The feedback they've given me is very positive, they especially like the experiences written by other teens-feels like a support group in a book format. Will order again!

I've had this book several times and loaned it to many people-it's a great book; easy to read, gives helpful hints for anyone going through a loss. Highly recommend it to everyone

This novel is a just read for anyone of any age that has experienced loss. The format is aimed for children middle school to high school age but it has powerful messages and concepts about grief.

Excellent book. Highly recommend.

I work with grieving teens and whenever possible, I give them a copy of this book. Every page has a gem that can help them sort through their feelings and experiences. All of the children have told me this book really helps them. It is written in large print with pictures, poems, and sayings throughout making it extremely accessible for a grieving teen (or adult, for that matter). It is one of the very best books written for grieving teens. I recommend it highly.

Very, excellent book to help teens and tweens understand and how to cope with grief. Easy to read. Highly recommended!

This useful book is sure to offer wonderful help to its readers. It offers just the right strategies and approaches as it prepares you to move forward from hard times to happier times. Bonnie Collins Life Coach
