Risked (The Missing)

Synopsis

Jonah and Katherine journey to 1918 with the Romanov children in the sixth book of the New York Times bestselling *The Missing* series, which is called “plenty of fun and great for history teachers as well.” It’s a paradox: When Jonah and Katherine find themselves on a mission to return Alexei and Anastasia Romanov to history and then save them from the Russian Revolution, they are at a loss. Because in their own time, the bones of Alexei and Anastasia have been positively identified through DNA testing. What hope do they have of saving Alexis and Anastasia’s lives when the twenty-first century has proof of their deaths?

In this sixth book of *The Missing* series, siblings Jonah and Katherine, along with their friend Chip, are kidnapped and land in 1918 in the infamous basement where the Romanov family was brutally murdered. Can the three seasoned time travelers save anyone from that doomed family? This thrill ride through a historical incident is complemented by an extended author’s note recounting the real circumstances of the death of the czar’s whole family, including Anastasia. Haddix focuses her story on the rescue rather than the murder. Like the protagonist of *Phyllis Reynolds*

Naylor's Alice series, the Skidmore siblings are aging, but with the emphasis on history and action, that change is noted only in passing. Grades 5-8. --Cindy Welch --This text refers to the Library Binding edition.

"The story continues with the suspense fans have come to expect in this entertaining and discreetly educational series| this story has great potential to spark interest in a historical event while keeping young readers entertained and fascinated. Plenty of fun and great for history teachers as well. (Kirkus Reviews) "Thrill ride through a historical incident." (Booklist)

This was definitely one of the best in the series do far! Can't wait for the next one! I would highly recommend this book to anyone who is interested in history, the future, or a Haddix fan. DON'T SKIP THE REST OF THE SERIES THOUGH! All we need now is Jonah's identity.

Great series. My daughter has read all these books. They were perfect for her reading level and really encouraged her to become a reader. She reads on a 5-6 grade level.

This was really a w e s o m e but I have to say the first book in the series was the best! I always love how her books are always making me turn page after page wanting to know what's next, Margaret Peterson Haddix is my FAVORITE author's EVER!!! ^f^ ^ ^ ^

Excellent, clean, my 15 year old loves these books, my 12 year old does too. I read the first 3-4 books and I even enjoyed them. Apparently good for all ages

Another amazing book in the Missing Series. It picked up almost right where it left off. This entire book just breezed by. It was funny, exciting, and just extremely good. I wish it had lasted longer! While we still don't know who Jonah is (I talked with the author, we find out in the next book!!!), I still loved every page and cannot wait until the next book, Revealed, comes out!

Margaret Peterson Haddix is such a brilliant author! I love recommending her books to my students because she causes her readers to be sucked into the world she creates. I find myself "all in" as I become a character in her writings! Truly, this series leaves the reader wanting to know "the rest of the story!" MS. HADDIX, YOU HAVE WOWED ME AGAIN!

Granddaughter loves them, she wanted the series and I bought it for her, she's very happy!

This book will keep you guessing until the very end!!! Being the 6th book in the missing series, you think you have already figured things out but this book proves you wrong!!!
