Adorable illustrations and a fun read with children. Really liked seeing different dinosaur names but could be challenging for a child trying to read the book. I bought this book for my twin nephews, so it was a pleasant surprise to see they had included twins in the book. We are a big fan of Sandra Boynton and this book was another hit!

Sandra Boynton writes, hands down, my favorite children's books. I learned about them when our school librarian bought a couple for my daughter. Her illustrations are adorable and her stories are too! Barnyard Dance is my favorite, but I won almost all of them. Some are educational (Opposites) and some are just fun (Dinosaur Dance). I have also bought these as gifts and everyone absolutely adores them. If you are looking for a short, fun book for a little kid, get one of these. They might not be complex enough to hold the attention of older kids though (but I don't know because I don't have any older kids).

It's always hit or miss with the Boynton books with my 7 month old daughter. She loves ones that have lots of sound effects and/or animal sounds - Moo Baa La La La is her absolute favorite - but often you can't preview much of the book on to see whether it has a lot of funny noises and rhymes so it becomes trial and error. Dinosaur Dance was luckily a hit! Not as big a hit as Moo Baa La La La but maybe it will get there with time. Lots of funny sound effects you can make as dramatic as you'd like when you read to your child, and those are always the best. I also really like that let you have a pretty in-depth preview of this particular book which they usually don't.

For a random kids' board book, it's cute, but for Boynton specifically, it's disappointing, tbh. If you or your kids loved Barnyard Dance (or, you know, if you all originally loved it and then all the adults in the household developed a gag response to the cover after reading it out loud 137 times in one month), you will probably be expecting more than this book delivers. Also not as good as Oh My Oh My Oh Dinosaurs.

Sandra Boynton has great kids books and this is still another great book that she has written. I would have given 5 stars but some of the words are hard to pronounce and it makes it harder for little kids. The pictures are great! This is a great book for Dinosaur lovers. This is a hard page book that is safe of little ones.

She so loves this book. We are new to Boynton books, but definitely a quick and huge fan. Well

made board books with great illustration. Short stories with great rhythm and a super easy read. Our daughter looks forward to a different one each night then mimics the sounds after to "read" them back to us.

Really fun book that can be enjoyed even more when read with enthusiasm. Daughter loves this book. Only took one star away bc my daughter has put chicka chicka boom boom in her mouth so many times and you can't even tell. With this book, it's wearing away quickly, so I'll just have to make sure this stays on the bookshelf and doesn't fall into her hands while playing.

Another cute book by Sandra Boynton! Love the rhythm and the little dino who goes "cha cha cha". Holds the 2-yr old's attention, so mission accomplished. Great for boys or girls.
