Wild Man (The Dream Man Series Book 2)

Synopsis

She's about to walk on the wild side . . . While filling the display case in her bakery, the bell over the door sounds and Tessa O'Hara looks up to see the man of her dreams. Within thirty seconds he asks her out for a beer. But after four months of dating, she discovers he's an undercover DEA agent-and he's investigating her possible role in her ex-husband's drug business. For Tess, this means their relationship is over. Brock disagrees. He's committed to his anti-drug mission, but he's fallen in love with the beautiful woman who's as sweet as her cupcakes-and he'll do anything to win her back. Standing between Tess and Brock are their own exes, one of them a drug lord who's determined to get what he wants. Now as danger threatens, can Brock break the rules he's lived by and let loose his wild side to protect the woman he loves? 125,000 words

Customer Reviews

Book Review- Wild Man by Kristen Ashley
Tessa O'Hara has been seeing Jake for four months. Things have been going great. He was going slowly like she needed. Then one night everything changed. She found out what was really going on. Jake was not what she thought. On top of it all her ex-husband wouldn't leave her alone and had dragged her into his

criminal crap. She was considering leaving Denver and moving to Kentucky. She threw herself into her bakery and work, trying to get control of her life. Three months later Jake/ Brock Lucas shows up at her house, demanding to collect on her promise to talk. He knew her secret because he was there when she first voiced it. His reaction made the difference. He wanted this thing he had with her and after that information, so did she. Of course things weren't going to be easy with her ex-husband and his ex-wife. They were both determined to come between Tess and Brock. I've read most of the books from this author. Her male characters are tough and rough around the edges. I love that. They know what they want, they are extremely loyal and they take care of what is theirs. I also like the female sisterhood that developed with all the female characters. They embrace each other and Elvira is a hoot. Love her. The author also includes a lot of the same characters in each book, so it's fun to revisit them. One of my favorite parts about reading a series is seeing past beloved characters. Tess was an awesome character. She was sweet, smart and very observant. I related more with her than any other characters I've read by this author. I could see myself in her. I also liked that she was over forty and owned her own business. She was an excellent role model considering what she had dealt with. I also loved that Brock saw her and knew how lucky he was to have her. This story was swoon-worthy and fun to read. I couldn't put it down. Then the author added family issues, ex issues and revenge. It kept the characters and the reader on their toes. Awesome addition to the Dream man series and a fabulous read. I give it a 4.5 out of 5.

As my first trip into the world that is Kristen Ashley, I have to say I am completely satisfied. The men are hot and alpha. The women are funny and smart. The story is just crazy enough to be believable. I read a few reviews before reading this book. I'd heard great things about KA, but I really had no idea what to expect. Hence the reason to hit up the reviews. There is plenty of mixed feelings out there, but with a 4+ rating, I felt confident in my decision to read this. Mystery Man is this mysterious, nameless man Gwen has been "sleeping" with for the past year and a half. She saw him at some restaurant/bar, he walked up, said "You comin' or what?" and that was the start to their sordid affair. Gwen has a crazy sister, Ginger. she doesn't know how to keep her ass out of trouble and therefore Gwen finds herself smack dab in the middle of Ginger's stuff. What she thought was a smart move, she walked into Ride, base for the Chaos MC, to talk to her sister's boyfriend, Dog. It is here that she catches the attention of Tack and the rest of the MC. Turns out Ginger owes Tack over \$2 million. Luckily, our heroine is a hot commodity who can turn heads because Tack offers her his protection. Lucky Lady. Here's the line that turned me into a KA fan: I turned to the silent biker

boys behind me, saw them all smiling, found this scarier than them being scary....Yep, KA had me hooked. So, there's a turf war--mostly directed towards Gwen. She catches the eyes of Tack, Hawk (her MM sex god), and Mitch Lawson (the hot cop who takes on her case when her house is broken into). So, there's the awesome Alpha thing that women would swoon over, the pissing contests, the "she's mine, don't touch" banter, etc., etc. Ginger is still out. She's still a piece of work. Not the good kind. Apparently Gwen was married before. Before all of this with Hawk. Her dad was not a fan of the ex, Scott. Here's a great example: Oh my God! Did my father just call my mystery lover "son" after only knowing him for five seconds? He'd never called Scott "son." The only thing he ever called Scott was "Scott" and "a #pussy." I think I died when I read this! Freaking hilarious! Oh, Gwen has awesome friends; The kind of friends I wish I had when it hit the fan. Cam, the straight-shooter. Tracey, the optimist. Troy, the guy who loves her, but never had the balls to tell her. And then Elvira. Man if she doesn't have her own book, I think I'll be disappointed. So, you like funny, witty, sarcastic stories with hot , albeit tasteful, sex thrown in? Wanna dream man of your very own to think about while you sleep? Have a thing for alpha males? Did you answer yes to any of those? Then grab the book and start reading. If you answered no, then go find something else to read because this book isn't for you. It is, however, for me and all of the other KA fans out there. I'm glad I'm in the know. Finally. Anyone know where I can find myself a Tack? That man had me going from his very first scene.

Kristen Ashley has become one of my favorite authors. This book was steaming from the first few pages until the end. Gwen is a strong, sassy woman who make alpha males flock to her. Hawk is just so intense you can't help love him. He fights to keep her safe and his fear of losing her almost makes him lose her to another alpha male in Tack. Who by the way is also someone you can fall for. Gwen has a crazy sister who is in loved with things that put her in danger. Don't want to spoil but circumstances get totally out of hand and things come to a boil. Hawk is there to save the day as is Tack and Mitch. I absolutely love this book and already reading the rest of the series. I also know the next series is Chaos which I read first is another totally awesome series.
