San Francisco Chronicle, May 6, 2007 'The sights, activity, eating and sleeping guides...are dense with useful information...and they seem to mirror the energy and attitude of the city itself.'

Who We Are At Lonely Planet, we see our job as inspiring and enabling travellers to connect with the world for their own benefit and for the benefit of the world at large. What We Do * We offer travellers the world's richest travel advice, informed by the collective wisdom of over 350 Lonely

Planet authors living in 37 countries and fluent in 70 languages. * We are relentless in finding the special, the unique and the different for travellers wherever they are. * When we update our guidebooks, we check every listing, in person, every time. * We always offer the trusted filter for those who are curious, open minded and independent. * We challenge our growing community of travellers; leading debate and discussion about travel and the world. * We tell it like it is without fear or favor in service of the travellers; not clouded by any other motive. **What We Believe** We believe that travel leads to a deeper cultural understanding and compassion and therefore a better world.

I find Lonely Planet guidebooks the most practically useful of all travel guidebooks. I find the Montreal/Quebec City to be definitely no exception. Just the maps in the book make it extremely worthwhile...no other maps are needed. Interviews with Montreal/Quebec City residents provide informative and real insider information about the cities, as do sections on history, culture and the arts. Information is adequately up-to-date. I highly recommend this book for anyone making a trip to one or both of the cities.

We found the basic info fine, but we had problems with maps missing info or even addresses being wrong.

I think I've finally realized that I don't really like lonely planet guides. They try to be something for everyone and while there are some clues to what you're getting yourself into, a guide that includes both places for raves and early bird dinners, just has too much for me. It did provide one good tip for live music, but I probably could have gotten that easily some other way (online, asking locals, etc). I recommend Frommers 3-day guide and Eat.Shop.Montreal for a visit. It does have good maps, though, and it's very thorough. It also has a nice concise history of montreal and culture description that did enrich my visit, but again, you could get that from wikipeda if you took the time.

This guide was invaluable during my recent trip to Montreal- the maps were great- having the reviewed places marked on the maps made life a lot easier. I just wish it were bigger.

Went to Montreal for the first time in August 2008. This guide does a great job of letting you know about activities off the beaten path. For example, every Sunday in the summer there is a drum jam by the University in a park by the hill (it's called the tam tam jam). It's like Woodstock and totally made the trip for me. No other guide book discussed it, but this one did.

Just returned from MTL and QUEBEC. Excellent book, we used it the entire time. Very helpful maps, interesting thoughts on Politics. Just know that Cafe Esperanza is closer to the Lauriel rather than Rosemont Metro. Also, when you go, be sure to check out the Charlevoix region. Thanks Ellis, great job!!

I'm impressed by the amount of detail, all the stories and know-hows have matched to what a well traveled friend says of Montreal. Highlights dining, lodging, and sites for each section of the city.

This guide proved to be very helpful, informative and insightful for my recent 9 day trip. Nicely organized and up to date material.
