The Noble Of Sperath (The Heirs Of Eveinia Book 1)

Synopsis

When the emperor of Eveinia is murdered alongside his heir, the kingdom's twelve nations are thrown into chaos. A fortnight later, a young woman wakes up with no memories, having been unwittingly selected for an impossible mission – to track down the chosen successor from each nation and appoint one as the emperor. If she fails, she may never be able to return to her old life. But a dark order is emerging. Hunted by assassins and escorted by a stableboy, Lia sets out on a journey to uncover the truth about who she is and why she was chosen. Her first target is Jade, the beautiful but mischievous princess of Sperath. Disguised as her maidservant, Lia must navigate the treacherous waters of the court, her daunting task, and a growing closeness with Jade. When suspicious poisonings begin to plague the castle, it's up to Lia to find the culprit, or else risk failing her mission and losing Jade entirely.

Customer Reviews

This novel is about a girl which no memory of who she was, but was divinely chosen to complete a vital task in order to determine a new governing leader. I thought this book was immensely creative and fun to explore. The main character is a bit skeptical at first and seems more interested in regaining her memories, however she soon begins to fully accept and show determination for her

responsibilities. She needs to find several candidates for leadership, however this story only covers how she interacts with the first. I'm not sure if that means that there will be a book for each candidate (if so, then expect a long series), or if the other books will cover more candidates together, especially since this first one seems to have given time to focus on the love interest. That being said, note that there isn't much romance in this book, however the possibility is visibly outlined. While that seems like a downer, I think it makes the story MUCH sweeter, authentic and exciting to follow. I always enjoy more of a build up rather than the sudden intense passion of an I-love-you-even-though-we-met-a-day-ago type of relationship. This story was invigorating and I'm so excited to read a young adult novel following a woman who realizes she is a lesbian.

I gave this book five stars because I found it to be intriguing from beginning to end. Some of the beginning was a bit slow for me but the pace and the plot starts to pick up more once Lia reaches her destination. I like how more information about Lia and how she came into her situation is revealed a little at a time and not all at once, it made the story more exciting. I would have liked for there to be more of a development in the relationship between her and Jade but I feel like that will pick up in the next book. Overall I really liked this book and I'm looking forward to reading the next in the series.

This a decent quest and adventure for a young girl to choose the next ruler of the kingdom....I do not like the fact that neither she nor the world have memories of her existence, but her friends are willing to work with her to find out if she wants.

This is another great book from Siera. It may be a different kind of story from her others, but the writing and characters are as wonderful as always. I am excited to see how these characters develop over time, and I am very intrigued to find out more about Tala and her role in the story. I'm sure I won't be disappointed! :-)

It is not often I give anything 5 stars. But Siera did the amazing and pulled everything together, and keep you guessing.

What a great start to a new series, I hope we don't have to wait to long for the next book!

Super engaging. The characters are all really likable and the plot is interesting. I finished it in an

afternoon, I am dying to see what comes next.

Started out a little slow but boy did it get better. Looking forward to the next book.
