# Hoping To Adopt: How To Create The Ideal Adoption Profile And Dear Birthmother Letter (Guide To A Healthy Adoptive Family, Adoption Parenting, And Open Book 1)

## Synopsis

This book is part of a four book series that can be purchased together as a complete ebook set. Are you feeling called to adoption? Guess what! You can adopt, but you may have to wait for a very long time if you don't have a good adoption profile. It's not as simple as clicking a button to say it, but you never get a second chance to make a first impression. Clicking a button is not enough because they're true. When a potential birth parent is browsing through profiles, being able to create an ideal first impression is essential for hopeful adoptive parents. You need to know how to select the perfect picture. You need to know what to say, and what not to say in your "dear birthmother letter." An ideal profile can help catch the eye of potential birth parents by more effectively showing how their homes work, look, and feel. Because few (if any) adoption agencies use the "first come, first served" method anymore, some couples are chosen very quickly but others, who might not have the right tools, wait for years. If you're hoping to adopt, there are things you can do to greatly increase the odds that you will be one of the couples whose wait is a short one. Not all adoption agencies are the same. Different agencies will have different methods for creating your profile. Some use scrapbooks, others do everything online. Still, others will use a combination of various resources. Some agencies want one profile letter, some want two (one from each of the hopeful adoptive parents). Some ask for the letter to be written in first person, while others prefer third person, and some prefer a combination of the two. Confusing? Yes. Here's the point: the basic principles will be the same, no matter the style.

## Customer Reviews

Creating your adoption profile can be a daunting task. This short overview describes what to do and not to do. This book is more geared towards a birth mother letter rather than a profile book. It's a quick read to help start thinking about the process and easy clear steps to follow.

This was a very helpful short book that gives guidelines about what to include in a birth mother letter. It went through each part and how you should address it.

This was a terrific, short, targeted read on adoption profiles. I've already read a couple, and I like this best of all of them. It was straight forward and practical. Thanks for some terrific ideas!

This book was not what I was expecting at all.

This did not have any real information in it. Very short as another reviewer said. Disappointed.

Although the information was helpful, this was closer in length to an article than a book. Other books on the subject provide more information.

This book doesn't take long to read, and is jammed packed with helpful information for building an adoption profile. After reading it, I gave my blog a makeover and only a couple weeks after making changes, I saw a significant increase in how often our profile was being viewed. We were chosen by a birthmother who told us that her attention was drawn to us because of one of the pieces of advice we took from the book! Thank you!
