Customer Reviews

"Fodor's is pitched a few notches higher, aimed at a fairly discerning traveler with an appetite for background and the occasional surprise. New York Times "The Fodor's guides are notable for their ratings of sights, restaurants, shops, accommodations and attractions. Chicago Tribune "In terms of comprehensiveness of coverage, the very accessible format, and the enthusiastic tone, this series remains one of the best on the market. Booklist "Fodor's

super-informative guidebooks are known for accuracy and attention to detail. Sacramento Bee "Fodor's can help you plan the perfect adventure. Arizona Republic --This text refers to an out of print or unavailable edition of this title.

Even with all the info available online--you can't beat a Fodors! Loved this book. Had great info, organized in a manageable way, and provided info on some of Puerto Rico's hidden treasures!

I did not like the structure at all-I cannot really tell what is is, there are chapters and headlines but somehow I get lost as soon as I start looking things up. However, a pro is def. That all addresses are given so that places should be easy to find as long as you do have internet. I feel like navigating with the given maps would be difficult as they are not very detailed. Edit: after now using it for a bit I still do not like it. Most of it tells you where to eat- a certain Restaurant and what to choose from the menu. Not helping for traveling at all.

I used this in conjunction with tripadvisor, if you are planning to go to PR this is a great book of knowledge. I however used the tips and never really looked into it past that. USE AT&T! Just as a big plus if you can use an at&t phone with a good data plan you can use the GPS function on about 95% of the island with little issue. Google maps and apple maps each work very well. I zipped around in my rental without the "needed" gps. Our next trip will be more along the lines of the book. PR 2017 cant come soon enough.

We finally did our trip to Puerto Rico and this book was a great reference.

Two things of use here, the Old San Juan map and the suggestion for the scenic mountain drive. Everything else listed is too damn expensive, and Puerto Rico is the cheapest place in the world. If you are paying over 7 dollars for dinner, you're doing it wrong. If you must, get this guide from the library to get a sense of the layout of Puerto Rico and the main suggestions, and don't bother taking this with you.

Found this book very helpful as we research and plan our trip to Puerto Rico.

An excellent and functional overview. Very useful for our 2 week trip to P.R. I do want to say that the relative youth of the authors is apparent in some ratings. Trendier restaurants and clubs were often rated based as much on the scene as on the actual quality of the food. These are important factors for many travelers, and kitchens vary from night to night. That said, many dining recommendations were timely and right on. DO NOT MISS Salt Gastropub in Isla Verde!!! The most consistently perfect and astonishing meal that I have had in several years.

This book was not very helpful. I felt I found more information just by googling things than finding them in the book. On two occasions we went to restaurants the book suggested and they were closed. I also wish there was more info on beaches. One beach the book suggested as a great beach was ok but a 15 minute hike down the beach thru a trail led us to a gorgeous hidden gem of a beach. We discovered this from trip advisor. That is a tip I buy these books for. My suggestion on this book for Puerto Rico is save your money and use the Internet.
