## Synopsis

The Spanish discovered Aruba in or around 1499. Because of the absence of precious metals Aruba, Bonaire, and Curaçao were declared Islas Inútiles (Useless Islands); Get to know the inside out of Aruba history, starting from the first day of the discovery Population Most of Aruba's population is ethnically mixed, including many people of American Indian ancestry, often in combination with Dutch, Spanish, and African heritage. There are few people of predominantly African descent, however, because unlike most other Caribbean islands Aruba had few slave-based plantations during colonial times

## Customer Reviews

I love any book about Aruba which is why I purchased this one. Even though much of the information I have already learned, it is still nice to read. No photos but that's okay.
