A great read!!!!

Excellent for anyone beginning in the study of esoteric astrology. I greatly recommend for those

versed in Mundane astrology, as this is necessary for inner development of the archetypes.

I've only read excerpts since I received the book yesterday, and can already tell you that 'Practical Astrology' is an excellent addition to my home library. The information in the pages is exactly what I've been looking for, and is written easy for even beginners to understand. I would definitely recommend it to anyone searching for enlightenment.

Exceeded My Expectations :-) Priceless Info & A True Blessing. Wish EyE Had Discovered This As An Infant :-)

pretty interesting

I like to break out this book at the beginning of every sign as to get a refresher course. The exercises really help you to start to see the Microcosm within the Macrocosm of our secret universe. This book practically applied, works!"Frankly, we do not like to spend our lives theorizing; we get to the point. We are tired of so much theory. We are essentially
"realistic. We want deeds, not theories or morbid intellects. We like effective realities. We head towards great realizations. All the spiritualist schools talk to you about supra-sensible worlds, but we go beyond that because we are more practical."

This is an awesome book. Modern astrology bores one with complex procedures and provides essentially zero reasons as to why it is what it is. Not only that, you are left with a sense of being 'cursed' by the zodiac and its convoluted equations which seem meaningful but for no explicable reason. Astrology seems cryptic and even the experts seemed baffled as to why they do what they do and how it is what it is. But this book is different because it combines astrology with theurgy and does so in a way which makes one feel empowered, like they themselves can take part in the grand cosmic plan and their ultimate destiny. It provides extremely profound insights into the inner working of the universe and our place in it, even going into how one can counsel with the archangels themselves in the higher dimensions of nature. Most astrologers leave one with many questions but this isn't like that. It is so rich and powerful, so concise and extraordinary that with true focus and concentration one will undoubtedly extract infinite value from it. This is an extremely powerful book and is completely worth possessing in one's library.

This is one of my favorite books by Samael Aun Weir because of its practicality. This book doesn't deal with compatibility or what not but deals with how one transforms in accordance with the stars. It has exercises that you use for every astrological sign and teaches one how to utilize energy in accordance with what is available at a certain time. I reference it monthly and use the techniques to speed my progress of internal development . Very use full and most importantly practical .
