Michael Newton, Ph.D., holds a doctorate in Counseling Psychology, is a certified Master Hypnotherapist, and is a member of the American Counseling Association. He has also been on the faculty of higher educational institutions as a teacher while active in private practice in Los Angeles. Over many years, Dr. Newton developed his own intensive age regression techniques in order to effectively take hypnosis subjects beyond their past life memories to a more meaningful soul experience between lives. He is considered to be a pioneer in uncovering the mysteries about life after death through the use of spiritual hypnotic regression. He now trains other advanced hypnotherapists in his techniques. Dr. Newton is the author of three best-selling books, Journey of Souls: Case Studies of Life Between Lives (Llewellyn, 1994), Destiny of Souls: New Case Studies of Life Between Lives (Llewellyn, May 2000), and Life Between Lives: Hypnotherapy for Spiritual Regression (Llewellyn, 2004). A A Dr. Newton has an international reputation as a spiritual regressionist who has mapped out much of our life between lives experience. He has appeared on numerous national radio and TV talk shows to explain our immortal life in the spirit world. I have read all Newton's major books which have been fascinated and very helpful in giving new insights especially in regard to in-between lives. Having personally experienced non-stress related

out-of-body and white light experiences such research has re-enforced and expanded my understanding. I was hoping to find satisfactory answers to some questions that all my life have caused me much heartache despite all my readings still do not make sense even in the big picture and continue to go unanswered:1. What purpose does it serves individuals who die suddenly or from indiscriminate natural "disasters?2. Prior to having the ability to learn from the experience in their present lives why do the very young suffer and die?3. Since animals do not have free will as humans and live mostly by instinct, what purpose does their suffering serve?...And why would a compassionate creator allow a natural system of carnivores/predators causing so much ongoing stress, fear and suffering in the animal kingdom?4. Why do so many people with so much talent and skill find themselves in circumstances with little opportunity to use those special abilities to make this a better world...Why do not the spirits not work along side us for the greater good rather then allow us to become so discouraged and allow others of greed and cruelty to continue to dominate and decimate our planet?5. Why does prolonged suffering occur amongst animals ...how could they be learning anything to further there spiritual evolvement since unlike man they are instinctual beings without free will ?6. It seems that $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $-\tilde{A}$ \hat{A} "lessons $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $-\tilde{A}$ \hat{A} can often be so hard, and or prolonged as to severely traumatized a person and loved ones causing understandable bitterness and regression, especially when earthbound the reasons are unfathomable yet still not revealed to them, which seems counter-productive and cruel? Christ knew with certainty where he came from, his purpose and where he was going and why he was being crucified while God in spirit by his side, giving much needed comfort and fortitude etc. ...so why not the rest of us ? 7. Childhood would seem waste of time rather then starting at a mature age or where one left off from their last incarnation. Children being more prone to engage in abuse (...and further bad karma) cause unnecessary suffering, especially toward the defenseless such as animals? It would be a great relief as well as remove a substantial hindrance to my spiritual progress if any anyone could answer these questions as specifically as possible or give me references to some text that does, or if unable to ask someone appropriate during your hypnotic therapeutic questionings who could, such as a spiritual guide which if published would be of great interest and worth to others as well. Surely a compliment to all previous works by Dr. Newton, this interesting collection of past life regression cases will no doubt satisfy fellow kindred readers of the "Journey" and "Destiny" (of Souls) types. These cases lend further credence to LBL theory and practice as they are all well received submissions from Institute-certified hypnotherapists from around the world. As such, the means and methods used therein are what we "Newtonites" have been accustomed to, while the many new individual sessions highlighting unique troubles and circumstances provide new perspectives of interest from the contributing authors. An exciting read that left me, however, indifferent this time around. Somehow the contributors have (by design or consequence) injected notions which suggest life's recurring hardships and lessons evolve toward "humanizing" us (souls) in the spirit world, and that would be very troubling, indeed. Suffice it to say that we should all hope that Spirit remains free of the so-called 'human condition,' without all of its troubling emotional

quagmires becoming permanent soul fixtures to lead us on a never-ending path of lessons which may never conclude in peace or finality. As they say, 'one man's soul trash is another man's soul treasure.'In any regard, a worthwhile -if not must have- addition for all who care to seek more....

I greatly enjoyed this book & now I'm returning to an old book by Mr. Michael Newton. Your books are fascinating. Your writing is good. I suppose my only curiosity is why authors, physicians and the scientific, community avoid the possibility of monotheistic faith being true at all cost?! I suppose Angels, guides, and life beyond this one are acceptable, although not in line, with the ridged Biblical text influenced by culture & politics but religion is often steered sway from being credited as reality as.well. All that you've written proves it's just as likely to mean these soils are under on remarkable good entity. Whatever name used... its God. If we should embrace depictions of a glory filled beautiful live between lives, we should be willing to accept a bit more, to believe in one God with assistance from good souls Minus the hate religion often puts in place, these may be more than only "depictions" of God. Love beauty, lessons & guidance...actually could be under an all loving creator-God just might be real as well but until then I'll continue reading. Thanks so much!

While this one did not speak to me quite as strongly as Journey of Souls and Destiny of Souls, perhaps because I am not meeting the subject for the first time as visualized by others, it is a good follow up to those two books of Dr Newton and sheds some added light on the overall subject. I think there will always be detractors who like to cast aspersions of fraud and quackery on all tales of past/future/multiple lives because that shakes their own belief system, religious teachings or comfortable live-die-go to heaven/hell paradigm. I don't hold that and eagerly explore with what I hope is an open mind all accounts of other possibilities. There is too much here to be blown off sensationalistic garbage.

"Journey of Souls" is first book I read by Michael Newton and that's an excellent compilation of case studies of those who describe their afterlife experiences. This is a good read, but in my opinion not as good as the first book which is totally ground breaking. Nevertheless, this book is worth reading and will give you even more information about life on the other side. What I especially like about Newton's books is that they are not his opinions about what happens after we die. These are the recollections/memories of real living people who have actually experienced the other side and many have the same or very similar experiences. Thank you Michael Newton and his students for all of your hard work in compiling so many case studies.
