Chile (National Geographic Adventure Map)

Synopsis

Waterproof Tear-Resistant Travel Map National Geographic's Chile Adventure Map is the perfect travel companion for adventure travelers exploring this long and narrow coastal country occupying much of South America's Pacific coastline. Expertly researched, the map combines unparalleled detail with a user-friendly design, including a handy index of towns, cities and National Parks and Reserves, to help locate them quickly, as well as a clearly marked road network of highways, major and minor roads, and unpaved roads, labeled with distances. In addition, hundreds of well-known and off the beaten path cultural, historical and recreational points of interest are highlighted, including UNESCO World Heritage Sites, archeological sites, beaches, lighthouses, monuments, churches, spas and areas for skiing, fishing and surfing. Outdoor adventurers will find mapped hiking trails along with such topographic features as contour lines, elevations and labeled peaks. The map conveniently covers the country in four sections: from its northern borders with Peru and Bolivia to the city of Copiapo; the next section continues south, through the capital of Santiago, to Concepcion; then into Patagonia and the city of Coihaique, the Chonos Archipelago and Moraleda Channel; finally to the southernmost part of the country with its National Parks and Preserves, including Alberto de Agostini National Park. The long border with Argentina is shown with border crossings. Inset maps cover Easter Island and the Juan Fernandez Islands. This unique map, with its abundance of specialized content, compliments any guidebook. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough • capable of withstanding the rigors of international travel. Map Scale = 1:1,750,000 Sheet Size = 37.75" x 25.5" Folded Size = 4.25" x 9.25"

Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This is NOT an "adventure map" just a poorly designed map of Chile. Segments are way to large to be of any use, and quite a bit of space wasted with ocean and pictures of things (like the statues of Easter Island) that are WAY bigger than the maps of any specific area. Don't bother.

My son said this will be great to have on his year-long stay in Santiago.

It is very useful for overall planning of a trip to South America later on this year. I purchased it because I had a National Geographic map of New Zealand that I used for a trip there last year that I liked very much. Although it is not detailed enough to do detailed planning, it provides enough detail to see where there are major roads, cities, etc. The fact that it is printed on "plastic" is a plus as well.

Really not a helpful map. Not big enough to see any useful roads, no blow-ups of city regions. It's not worth the money. Poorly designed and doesn't utilize space to show you as much as possible. I consider it a waste of money.

This is a great map printed on quality paper which easily survived 4 weeks of trekking through this wonderful country. I highly recommend it.

Very clear and easy to use.

National Geographic puts out a very precise and thorough map. I got this one for my daughter who is doing a year of study abroad in Santiago, Chile. This map will help her explore the country during her breaks from school.

Good for an overview of Chile and getting general directions. Well made and the tear resistant waterproof paper is very nice and will last. Used it for general directional support while driving in Chile, but relied on my GPS.
