# Take A Hike, Teddy Roosevelt! (Step Into Reading)

## Synopsis

A Step 3 Step into Reading Biography Reader about Teddy Roosevelt and his efforts to protect our environment and establish national parks. Teddy battled asthma all his life, and the list of things he shouldn't do was long. But when people told him "you can't," he set about proving them wrong. This book focuses on his inexhaustible enthusiasm and his commitment to preserving America's natural resources. Step 3 Readers feature engaging characters in easy-to-follow plots about popular topics. These books are for children who are ready to read on their own.

Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

## Customer Reviews

"I had a smile on my face throughout the reading of Take a Hike, Teddy Roosevelt! The story is fun and engaging, the pictures bright and inviting, and youngsters will delight in seeing all sorts of animals on just about every page. The subtle way that Teddy grew older as the story progressed was well done, as was the message of conservation, which was conveyed without being preachy. Add in the "Step into Reading" rating where the level of the book is clearly delineated...and you have a winner. Overall, this is a great history lesson for kids and would make an excellent resource for those

who need to do a project on one of this nation's presidents." -Holly Connors, Feathered Quill, December 2015

This step 3 early reader features the life story of Teddy Roosevelt, with an emphasis on his childhood and his growing love of the preservation of animals and habitat. It's filled with cheerful and colorful illustrations. This fantastic book is almost 50 pages but manages to make them interesting and easy to read. Biographies are great, but when they cross into learning about a President and saving the environment, it's a perfect mix for a school library. This book could be featured by a teacher for a variety of lessons, as well as a read alone for a student. I would add this book quickly to my collection! Now where to shelve it....." Rated: "Essential"EL(K-3) -ESSENTIAL Reviewer: Stephanie Elementary School Librarian & Author, from KISS THE BOOK book review site [kissthebook.blogspot.com/](http://kissthebook.blogspot.com/)

I started writing this book all the way back in 2007! After a lot of time, the story changed from being about TR's determination to do all he could in his life to make America better - consistently stating "Certainly I CAN!" after people told him he couldn't achieve something. Focusing on TR's dedication to conservation was my super-smart editor Anna Membrino's idea - and it was a smart one! I hope young readers, librarians, teachers, and parents will read this book and then go about finding more books about TR, but even more importantly I hope everyone will do what Teddy's folks told him when he was young and get outdoors and explore! America is filled with amazing parks and museums and nature to discover - honor TR and take a hike to these places!

This is a good series for early elementary. The writing is lively and the colorful pictures are appealing to children who are used to cartoons. Each book describes an important historical figure or invention. This one describes the President who developed the policy of saving scenic places for all of us to enjoy forever. I think it's a good idea to choose one important characteristic to catch the child's imagination. Even though it doesn't begin to describe the whole character, it might help the children remember the name and perhaps even help them begin to grasp the significance of some historical events.

Read to my 6 year old grandson. He enjoys stories about real people and this fit the bill. Its a nice lighthearted story, easily understood for the age group.

Great book to introduce kids to the national park & conservation concept. It also is a nice capsule

summary of Teddy's life of public service. Well illustrated, with straightforward text. Will help to Green the next generation.

Son loves it

Take a Hike, Teddy Roosevelt! (Step into Reading) For my beginning reader granddaughter's Easter basket - leafing through it, I think she'll enjoy it. She loves to hike and be in open, wide spaces, so this should speak to her.

We love this book, but it is admittedly preachy. Beautiful illustrations and several fun anecdotes. After reading this my daughter renamed her teddy bear "Jonathan Edwards" after the bear that lived at the White House with the Roosevelts.

I bought this book for the kids to keep in our new RV. I thought it would help them get a good appreciation for the National Parks that we are planning to see. My 6 yr old loves it. It is the only book that he will lay in the bunk and read by himself.

Great book for first graders. Lots of factual information. My students enjoyed this book.
