Customer Reviews

Second grade students will delight to study creation based upon the six-day account described in the book of Genesis. Students learn about what God made during each of the days of creation. In full-co

We are a homeschool family and have used this book as guide to cover everything from light, states of matter, water cycle, magnetism, geology, geography, chemistry, atomic theory, zoology and more. It does have a clear Christ centered approach and introduces a variety of scientific subjects as they appear in Genesis 1. We have delved deeper but I am very satisfied with the quality of the writing used for teaching children about science. I am a biologist and do present all perspectives to my own children as I homeschool them. My K4 and 2nd grader truly enjoy the experiments and understand clearly the material presented. I am quite pleased and impressed with quality for the price.

Good book!!

there was writing in the book that was not listed in description.
