As a citizen of the United States I find it interesting to read books - especially illustrated books - about other countries. In the children's picture book *Carson Crosses Canada* we have a little doggie and a little old lady packing their suitcases (dog's and suitcases? Well, this is a children's imaginative book.) and get into their little yellow car and hit the road. They are crossing Canada to see her sister. The illustrations done in watercolors capture the essence of Canada's mountains, beautiful trees, and varied landscapes. Like the United States, Canada is a big, beautiful, and varied land of beauty. I think perhaps it would have been better had Carson, the doggie, not left his "little

souvenir" on a grassy spot although we all know that is the nature of doggies. Their mapped route shown on the end pages also is a simple map of the grand land of Canada showing the provinces and places they stopped. A cute book and nice introduction to Canada for little ones. I received a complimentary copy from Librarything.com and the publisher and was not obligated to provide a review. Opinions are my own and freely given.

I think the Canadian Museum of History in Ottawa is one of the finest national history museums in the world. One can follow a single trail through the entire history of the country; it's sort of an historical version of a cross-country trip, just it's a cross-time trip. I thought of that as I read this book. Here, we get an impressionistic view of Canada as we travel from Tofino in the west all the way to Newfoundland. Coast, Rockies, Saskatchewan, Montreal, PEI - we get a little taste of everywhere. This is a kid's book, not a history or, really, a travelogue. It's not even explicit that we are following any particular route. We just start on one side, travel a long way, and end up on the other side. I guess parents could add whatever geography and history they might want to, as they read. But even just as a picture book, this is a treat. Carson and his mistress are cheerful and adventurous, and they make sure to have a good time as they travel and camp their way across the country. The vibe is upbeat and energetic. Carson is a peppy sort of dog and adds a good deal of personality to the trip. The illustrations are lively watercolors, intended to capture the spirit of the trip rather than the actual realistic landscape. The pair travels light and their tale is comfy and fun. It may not be Rand-McNally, but it gets across the size and variety of the country. It's also just a good lady-and-dog story. So, I'm in and I could see a little reader or read-to getting a kick out Carson and his travel adventure. (And I like Squeaky Chicken.) (Please note that I received a free advance will-self-destruct-in-x-days Adobe Digital copy of this book without a review requirement, or any influence regarding review content should I choose to post a review. Apart from that I have no connection at all to either the author or the publisher of this book.)

'Carson Crosses Canada' by Linda Bailey with illustrations by Kass Reich is a pretty cute story about a long road trip across a beautiful country. Annie lives on the West Coast of Canada in British Columbia with her dog Carson. One day, she gets a letter from her sister Elsie, and Annie decides to take a road trip to visit her sister. Carson doesn't have a suitcase, but he's happy when Annie remembers to pack his toy, Squeaky Chicken. Annie promises Carson that he will have a surprise, but as they travel through big trees and hoodoos and plains, Carson can't figure out what it could be. Annie is an intrepid traveler and Carson is the perfect travel companion. The art is beautiful in

this picture book. Canada is a big, beautiful country and that shows as Annie and Carson make their journey. This is a really cute story and would be a nice read along for preschoolers. I received a review copy of this ebook from Tundra Books, Penguin Random House Canada, and NetGalley in exchange for an honest review. Thank you for allowing me to review this ebook.

I received this book as part of the LibraryThing Early Reviewer program. It is a cute picture book about a dog named Carson who, with his friend Squeaky Chicken and Annie travel across Canada to visit Annie's sister. The illustrations are wide-brush gouache paintings with vivid colors. I especially like that it has a map of Canada that shows their route, and that it showcases the beauty and variability of Canada.
