# Soul Mind Body Science System: Grand Unification Theory And Practice For Healing, Rejuvenation, Longevity, And Immortality

## Synopsis

What is a soul? Are miracles real? When the soul is healed, how does the body respond? Throughout history, there have been countless cases of "miracle" healings, unexplainable by modern science. Dr. and Master Zhi Gang Sha has personally healed thousands of patients, usually in front of dozens of witnesses. Hundreds of videos of these healings can be seen on YouTube. But how can these healings be explained? Soul Mind Body Science System is the first book to explore the scientific explanations for why soul healing miracles are genuine. Written with Dr. Rulin Xiu, an expert on string theory and quantum physics who trained at The University of California, Berkeley, Dr. Sha shares, for the first time, the scientific theories that explain why all actions on Earth are guided by the reality of the soul. In Soul Mind Body Science System, the complex and fascinating relationships present between matter, density, information, soul, and consciousness are thoroughly examined. Written for armchair and professional scientists alike, this book makes a significant contribution to the ongoing debate about the true nature of reality. As the lines between "science" and "spirit" blur, this investigation becomes ever more important. The groundbreaking Soul Mind Body Science System is for all readers who have contemplated the fundamental scientific laws of the universe and sought answers beyond those offered by popular science and mainstream faith.

"This is a major contribution to the task of meeting a challenge that is crucial for peace, health, and

understanding in the world, bridging the gap between the two great streams of human culture: spirituality and science." Ervin Laszlo, two-time Nobel Peace Prize nominee and author of *The Self-Actualizing Cosmos* and *The Immortal Mind*

A theoretical physicist working on string theory and grand unification theory, Dr. Rulin Xiu was inspired and guided by Dr. and Master Sha to mathematically formulate soul, mind, heart, and consciousness using physics and to create a grand unification theory to unify soul, spirit, mind, heart, and consciousness with physical existence. Born and grown up in China, Dr. Rulin Xiu received her doctorate degree from UC, Berkeley in 1994 for her research on string theory and grand unification theory (GUT). She is also an entrepreneur, herbalist, singer, healer, and author. Her work includes the book "Divine Love," and she hopes to inspire readers around the world. There is a diagram in the book called *The Source Language Grand Unification*. I asked for a healing and put my hands on it. I could feel the energy moving inside of me in the area requested! A very beautiful book that is brilliant and very simply presented. As someone who has studied science but is also spiritual I found this book to be very helpful to help make sense of the spiritual world in a logical and mathematical format. The  $S + E + M = 1$  formula has endless applications in life to consider and can help you to balance any area of life that is disharmonious or chaotic for you. I've looked for years for a simply yet, complete, teaching on how to ascend and reach enlightenment and this book provides the most elegant and simple explanation of the structure of reality and how to achieve oneness in simple one sentences I've ever seen. I really love this book and especially like how it explains the function and purpose of each layer of the equation and how they work together to achieve alignment with our highest potential selves and heaven at large. A perfect book to read for those who want a simple and clear explanation for how to connect with all things and to achieve the highest enlightenment. Everyone can benefit from the structure that is provided within the book on how to understand ourselves and how to achieve enlightenment. Use it to help you to understand the structure and purpose of life. Use it to understand how to live in alignment with yourself in the purest ways. Use it to learn how to heal yourself and connect with your highest

potential being. This book is awesome. Thank you so much.

I am not a scientist so I can't speak to what a scientific mind might be looking for to bridge the Grand unification theory to spiritual understanding. What I can say is that proof of something for me is in the results it produces. The practices in the books produce healing results in my life. The grand unification theory is the Tao in this interpretation. If I am hungry, I want food... I don't want to draw a picture of food. This book gives the explanation but more important is gives the experience of the Tao, bringing what is needed to fulfill you based on how much you have purified your karmic blockages to receive it. It then goes further to assist you to clear the way further to receive more. If you like equations and descriptions of that to assist your mind to enjoy it more or receive it more that is here for you as well.

Thank you Dr and Master Zhi Gang Sha for all your love, compassion, generosity and everything which you do for all humanity. Words cannot express how unconditionally you serve all of us. I was eagerly waiting for this book. It helps to understand spirituality in a scientific way. It aligns spirituality and science as many people have misconception that spirituality and science are altogether totally different. It explains Universal Law which is the root of Science and everything. This book explains how our frequency, vibration changes in scientific way when we do certain spiritual practices. The formula of  $S+E+M=1$ , Tao Normal creation and Reverse Creation and many more theories are explained in spiritual as well as scientific way in a simple and profound way. I highly recommend to all humanity of all ages.
