Pocket Oxford Chinese Dictionary (Oxford Dictionaries)

Synopsis

With the tremendous success of the Olympics in China, and with the spectacular growth of Chinese economic and political influence around the world, a reliable dictionary of Chinese is more valuable than ever. Now Oxford announces a new edition of our highly popular Pocket Oxford Chinese Dictionary, offering a wealth of lexical information in an affordable paperback format. Authoritative and up-to-date, this fourth edition of the Pocket Oxford Chinese Dictionary covers over 90,000 words and phrases, and over 130,000 translations of contemporary Chinese and English, with hundreds of brand-new words added to both languages. More than just a dictionary, this handy reference book also includes brand new sections on culture and communication, giving you the tools you need to communicate effectively and understand aspects of another culture. The section on culture offers lively and useful information on life in the Chinese-speaking world. The communication supplement gives help with all types of correspondence, including example letters, emails and résumés. This dictionary is ideal for English and Chinese learners alike, with Chinese simplified and traditional characters as well as Pinyin romanization used throughout. You can quickly find the character you need by looking up by Pinyin or using the radical index. Mandarin pronunciations are provided in Pinyin. The new edition of the Pocket Oxford Chinese Dictionary is the perfect reference for anyone needing an affordable, portable Chinese dictionary.

Customer Reviews

This is the best Chinese-English, English-Chinese dictionary I have found to date. It is easy for both

individuals who have no Chinese language and for Chinese speakers to use. The English-Chinese, although British English, shows characters and PinYin so words can quickly be looked up and the PinYin pronunciation deciphered. The Chinese-English is rather like a traditional Chinese dictionary. One can either look up the PinYin to find the character - both simplified and traditional are listed - or reference the radical, cross-reference the character by stroke count, and find the PinYin for the character, then look it up in the alphabetical listing. No one ever said Chinese was easy for Westerners, but this dictionary really works for me.

Good dictionary, English/Chinese or Chinese/English no problem with this. Some people say it is too big for a pocket dictionary, I say it's just right (of course it will not fit in your pocket) but is packed with plenty of words, so if you are learning Chinese or if you know someone who is Chinese wants to learn English this is for them. It has Pinyin and Chinese Characters and also the English pronunciations. What a better tool to learn a language than a dictionary, you can't go wrong here.

It's a fine dictionary -- very nice in fact, but I need a dictionary that has Traditional characters for each entry. This one occasionally has Traditional characters in brackets, but not for every entry that has both a Simplified and Traditional character, only some, which makes it incomplete.

Okay, so I got this because my Chinese Teacher told me that it would be easier if I got an English to Chinese dictionary to like, translate things. So when I brought this to class, I had my teacher look at it and she totally loved it! In the back it showed things like greetings, questions, goodbyes, and even the clock! So now, I can tell my friends what time it is in Chinese! This is better than I expected! I love it! I think this is really great for beginners too, not just people who have been learning Chinese for a while. Xie xie! Zai jian!

This Dictionary is excellent as it has both Chinese to English and of most importance to me, English to Chinese. It's clear and concise and you can get your point across by showing the book and definition to the Chinese person if you don't pronounce the words correctly,..... and I usually don't with my Southern accent. If you're going to China, you need this book! You never know when you'll be in a situation with a Chinese person and really need it. This book was a life-saver for me!

I have only used this Chinese dictionary and a software Chinese dictionary and this is my favorite. The cover is a plastic covered softcover of some kind. The center of the dictionary contains

a list of radicals and characters to make finding words extremely easy. The simplified characters are given, but also if the traditional character differs it is given in parenthesis. When I first purchased this dictionary I was amazed at how many words it contains. The characters in my opinion are easy to see and the paper is very white. The readings are in pinyin and they are Mandarin readings. This is a great and well made dictionary, in my opinion.

good

excellent dictionary for english-chinese and chinese-english. 99% of what I am looking for. It's perfect size/weight/level for normal learner and everyday use. For a "pocket" dictionary, I use my phone. But this paper dictionary is great for browsing and for sifting through those words with like 10 uses, and seeing grammar and examples.
