After realizing that my 8th graders had a very poor vocabulary, I picked up this little book. At my former place of employment, students did these from 1st grade to 3rd grade. Well, I thought I'd give it a try. They are tough and challenging and now I give a quiz on the words every week. My students LOVE it. Most likely because the easy 100% on the quiz brings up their grade, but what do I care!? They are learning new words and are willing nonetheless! LOVE LOVE (Keep in mind that I am a language arts nerd, so my comments on this particular book do emphasize my complete bias on the subject matter).

I use Wordly Wise with my daughter. The curriculum introduces new vocabulary words each lesson and gives a good definition on the words. There is then a series of tests, some multiple choice, some using the words in a sentence. The chapter ends with a story, which uses all of the new words, and a series of questions about the story. It is a very well put together curriculum and I have

noticed my daughter's vocabulary increase a lot since we started it. I looked forward to using this series next school year.

My son was doing Wordly Wise in his High Potential class in public school and I was so impressed with the new vocabulary he was using. I bought the grade 7 book for our daughter whom we homeschool. It has been a great addition to our curriculum and opens a whole world of new words for my kids.

Wordly Wise 3000 is a good series of vocabulary books. However, I wish there were a section of "fill in the blanks" for students to choose appropriate words to complete sentences. Regarding "acbooksnet" which offers "free answer key" if you buy a book from them, DO NOT bother. The answer key doesn't come with the book. But you have to sign in on their website. They ask you to give them a very good feedback. (I wish I could go back to change the feedback.) They will send you a Pay Pal link and ask you to pay another \$3.99 for them to send the answer key. Just order the book from and get the free shipping!

This isn't just about spelling words, but teaches grammar, parts of speech, and context clues, as well. This helps him in the long run to read, write, and speak correctly. My son completes the exercises, then translates to Spanish. That way he really gets the sense of the words in both languages. is vocabulary has improved.

My children use these each year. They are solid content workbooks. They help expand their vocabulary, grow their minds, and assist in their reading. For the cost of just 2 coffees you get a lifelong boost for your kids! Money well spent in my opinion.

excellent condition

These are books that my kids requested & they like to work in them. They used them in their school last year.
