Debbie Ducommun has a B.A. degree in animal behavior and over 18 years of experience working in the animal care industry with a background in training, nutrition, and health care. Known as "The Rat Lady," Debbie is internationally recognized as an expert on domestic rats. She lives in Chico, CA with her husband, Larry, and a varying number of pet rats.

This book was perfect for me as a first time rat owner. It cleared up all the mysteries of what my rat was going through, and made interacting much more comfortable. Training went by quickly as they learned the basics, and moved on to real tricks. The directions are very thorough and easy to follow, and often provide insight into rat behavior. We all have a ton more to learn, and this book will be keeping us about busy for quite some time.

This book is great. I got it for my dad for Christmas because he is obsessed with how smart our rats are. He hasn't really read it and applied it to our rats yet, but looking through all the pictures of all

the adorable baby rats has been fun. This book teaches you how to teach your rat little tricks like responding to his name, sitting still, going through obstacles, etc. Very informative. Also teaches you a bit about how to care for your rat. Since we've had rats for 10 years or more, we didn't need those instructions. But it is nice for new rat owners. :)

I love this book. I love rats. Anyone who wants to train their rats to learn tricks, must buy this. I've already taught one of my babies some tricks using a clicker. Rats are so smart and love people. They will love you even more after you read this book. Definitely worth reading and would recommend to anyone else.

This would be a great book for people who don't know much about training, if you've trained other animals it's just the same information but focusing on only positive reinforcement which it should. What saved the purchase is it did have some nice tips on how to go about some tricks. I would recommend it, but if you know much about training half the book isn't that helpful.

Super helpful although I think because we are newbies we might just need to try a little harder. lol

As expected and very handy with a lot of useful information

My granddaughter requested this and has enjoyed it.

Great information to help us get to know and get along with our new pets.
