Steven Universe Original Graphic Novel: Too Cool For School

Synopsis

We're going to give you another reason to Believe In Steven! Schoolboy Steven, activate! Steven finds himself enrolled in Connie's school after a show-and-tell lesson goes awry...and things just get crazier from there! Steven is having a hard time fitting in with normal school and Connie just wants to graduate with good grades and a clean record, but when gem and homework collide, who knows what will happen. This is a lesson you don't want to miss! Based on the success of the Adventure Time and Regular Show original graphic novels, KaBOOM! is kicking off a series of brand-new stories about the misadventures of Steven Universe and the Crystal Gems!

Customer Reviews

Gr 3-6 • Based on the Cartoon Network series, this original graphic novel explores what happens when homeschooled Steven follows his friend Connie to school. Wherever Steven goes, chaos soon follows, and an innocent show-and-tell activity goes terribly wrong, requiring his three magical alien guardians, the Crystal Gems, to swoop in and save the day. The story reads like an extended television episode, which fans should enjoy. The artwork starts off well enough, but some strange departures in style occur later on. The characters have expressive faces and animated movement, and the backgrounds are well rendered, but as the narrative continues, the line work abruptly becomes less delicate and the characters appear awkward and flat. There are

also inconsistencies in the costuming and eye color of the characters. The text itself needs a great deal more editing and some heavy proofreading throughout. It's a fun book in concept diminished by sloppy execution. VERDICT This graphic novel is funny and warm and has much of the same charm that attracts viewers to the television show, but it is difficult to recommend it as a purchase with so many errors and discrepancies.

— Kelley Gile, Cheshire Public Library, CT

This was ordered in November and after months of printing delays it finally arrived! I'm not really a reader of graphic novels but we both bought this for my 10 year old but we both love the show. I think the art is nice and the story is cute, but I found some of the frames strange as in the characters seem to be reacting to something and it's hard to tell what that is. The action was sometimes hard to follow. The story is also odd in that it ends with certain people upset with Steven and Connie (I don't want to spoil anything) and then later those same people are honoring them for the same incident. The last short story with Onion was cute. Overall I think it's fine and my son will like it, but it feels a little like it needs some finessing.

The story is very cute and well written. The cover, however is misleading. The art in this graphic novel is just OK, though sometimes inconsistent. I feel as though it was better towards the end than it was in the beginning, and the majority of the action simply looked boring. The book was in perfect condition when it arrived, and I have no complaints about shipping.

I enjoyed reading it, but I wasn't too happy with how the main story ended. There is a mini story in the back of the book, and I find that story to be funnier than the first one. Any Steven Universe fan would enjoy it, but I think anyone unfamiliar with the show would be confused on some of the magical elements.

Loved it! It's a nice little story to read while waiting for the new episodes. Worth the buy. There's even a short comic at the end. It's funny and you get to learn more about Steven and Connie than we knew before. It reads like it was an actual episode from the show. It's not a short story, so if you're thinking it's about the length of a regular comic book, it's not. It's fairly thick. It would be a great addition to your bookshelf!

I literally just got this graphic novel and it's better than I expected! There was a perfect balance of comedy, drama, and adventure, and it had a perfect happy ending. Although I was weirded out by

that mini comic "Yard Sale" but overall it was great and I am looking forward to reading the next volume.

This is a fun little story about Steven and Connie's adventures at her school. There's no major plot points or revelations, but it is a fun read.

It was a very sweet story that completely captured the personalities of all the canon characters. It was funny and more realistic than I certainly anticipated. 11/10 Would read again. (I've read it twice already!)

It's a good story about Steven and it has a better art style (at least I think it is) than the official Steven Universe comics.
