Synopsis

Five Star Reviews!"I'm the guy. I only get to make suggestions, but when I showed a beach wedding to Nancy, she sure lit up. This book helped me sell it, because there are a few things to take care of that I didn't think of. My big idea: I'd like a yacht docked close by that could take us out on the water as part of the reception. I now see how that's possible. All the pictures gave Nancy some ideas for decorations and design. That is helpful, but the author also gave us her source for the items. I could see the prices immediately, so I could keep her away from the really expensive items....she's watching me write this." "I absolutely loved this book. It was a fun read and gave me plenty of potential ideas for a beach wedding. I am seriously contemplating switching from a fall wedding to a beach wedding." "Paris has outdone herself on this book. I have always loved the beach and these wedding themes are perfect. You won't believe how elegant a beach wedding can be. There are ideas for three themes and gorgeous pictures to help you envision your perfect day. From the themes to wedding centerpieces and favors. She even includes a link to make it easier for you to find sources for these great ideas." took all of 3 minutes to go through the whole book and nothing original in it. Total rip-off!

Pretty!!!

This book is jam-packed with some incredibly insightful beach wedding ideas...many that I had never heard of before. The photos are beautiful, and the author did an awesome job at not only giving you valuable wedding ideas, but also provides several colorful illustrations that depict what everything should look like to impress the guests...If you're currently in the wedding planning stage and are looking for some good ideas for your upcoming wedding ceremony, particularly if it's gonna be on a beach....then you've got to check out this book because it will detail just about everything you need to do and plan for to pull off a fun and memorable beach wedding...

If I could, I would give it a zero...Sad little book with maybe 15 pages and poor ideas. Don't waste your money.

Perry has outdone herself on this book. I have always loved the beach and these wedding themes are perfect. You won't believe how elegant a beach wedding can be. There are ideas for three themes and gorgeous pictures to help you envision your perfect day. From the themes to wedding centerpieces and favors. She even includes a link to make it easier for you to find sources

for these great ideas.

This is a quick and easy read but has some great ideas to make your beach wedding something really special. 3 different themes for your wedding are discussed in detail. This really gets your imagination working so you can create your special day exactly how you want it.

If you are even thinking of a beach wedding or know someone who is - get this book! As I'm helping my niece plan her big day, we are constantly looking for ideas and suggestions. This book is filled with them and wonderful pictures for great descriptions. This is an excellent book for resources and to get your creative juices flowing. Buy it, you won't regret it! Outstanding!

Sent back. It wasn't very helpful at all. Pictures were unclear.
