Lawn Services & \$hit,INC.: How To Succeed In The Lawn Business, Ten Years Of Being Out On The Lawns

Synopsis

For the outdoors, energetic type of person, providing lawn care services is the perfect way to avoid unemployment and those crappy jobs that pay minimum wage. Lawn service providers can often get \$15 to \$25 per hour and, in a way, set their own hours. Additionally, once you have built a relationship with your customers and consistently provide them with great services, the chances of being laid off are minimal, as the customers aren't willing or able to tend to their own lawns and they will love YOU continuing to take care of the job. This book covers the basics of the lawn job, ways to create loyal customers, ways to make extra money by better serving the customers, and offers many examples of lawn routes, lawn types, and customer types. There is also a section on the "strange things to expect," which illustrates the crazy things that can happen out on the lawns. In addition, there are management philosophy topics and marketing concepts included that will help you to leave the competition in the dust. If you love the idea of making people happy and being paid very well, providing lawn services might just be for you. This book will give you the insight to make it all happen. Additionally, there is a YouTube channel named "Lawns and \$hit Inc" that will further support our lawn conversation. Sincerely, I want you to be great at what you do and make the world a better place while earning a good income. Try this book, and you might find yourself "happily unemployed"!
