The Legacy Of Hurricane Mitch: Lessons From Post-Disaster Reconstruction In Honduras

Synopsis

Around the world disaster vulnerability is on the rise. The incidence and intensity of disasters have increased in recent decades with lives being shattered and resources being destroyed across broad geographic regions each year. As it swept across the Honduran landscape, the exceptional size, power and duration of Hurricane Mitch abruptly and brutally altered the already diminished economic, social, and environmental conditions of the population. In the aftermath of the disaster a group of seven socio-environmental scientists set out to investigate the root causes of the heightened vulnerability that characterized pre-Mitch Honduras, the impact of the catastrophe on the local society, and the subsequent recovery efforts. Edited by Marisa O. Ensor, this volume presents the findings of their investigation. *The Legacy of Hurricane Mitch* offers a comprehensive analysis of the immediate and long-term consequences of Hurricane Mitch in Honduras. Based on longitudinal ethnographic fieldwork and environmental assessments, this volume illustrates the importance of adopting an approach to disaster research and practice that places "natural" trigger events within their political, cultural, and socio-economic contexts. The contributors make a compelling case against post-disaster recovery efforts that limit themselves to alleviating the symptoms, rather than confronting the root causes of the vulnerability that prefigured the disaster.

Book Information

Hardcover: 240 pages

Publisher: University of Arizona Press (December 15, 2009)

Language: English

ISBN-10: 0816527849

ISBN-13: 978-0816527847

Product Dimensions: 6 x 0.8 x 9 inches

Shipping Weight: 1 pounds

Best Sellers Rank: #809,055 in Books (See Top 100 in Books) #19 in [Books > History > Americas > Central America > Honduras](#) #294 in [Books > Science & Math > Earth Sciences > Atmospheric Sciences](#) #783 in [Books > Politics & Social Sciences > Social Sciences > Disaster Relief](#)

Customer Reviews

"There are few works of such importance that detail the ongoing impacts of natural disaster

events, let alone provide an assessment of country-wide impacts of a natural disaster. This book also provides a critical perspective on the failure of development strategies that proceed without consideration of potential vulnerabilities—both those created by development and those exacerbated by it. It also reveals the resilience of the poorest victims and provides lessons learned on adaptability and coping that force a re-examination of the very nature of resilience as defined by disaster response experts.

—Christopher Dyer

Marisa O. Ensor is an assistant professor of anthropology at the American University in Cairo. She has researched and published on disaster-, conflict-, and development-induced displacement in Latin America, North Africa, Spain, and the United States.
