•This unique and elegant wordless adventure follows a timid boy's foray into a crowded public pool. Due to the crash of humanity cramming the water with their comical bulk and myriad of blow-up gear, the goggled hero dives deep and discovers a female counterpart, who leads him to a forest of fantastic aquatic creatures and plants. Some fish are friendly enough to pat; others embrace the children into their school. A group of fiercer-looking fish flee, allowing the humans to enjoy a white whale's visit. The tamer underwater inhabitants lead the children back to the surface for their return to the deck. Lee's artistic choices are brilliant. The rowdy crowd is depicted in black, white, and gray line drawings and contrasts with the joyful aquatic world in colored pencils and pastels. The large format and the artist's generous use of solid space greatly expand the journey's vistas. VERDICT Lee's debut picture book is a swan dive.

One of the most beautiful picture books I have ever seen. The figures of people and animals, the
use of color is imaginative and alluring. Color gradually becomes more intense parallel with the
development of a gripping story of the forming of a relationship between two shy children. In this
rendering of the most gripping and universal human experiences no words are necessary, a tribute
to the author's imaginative and artistic capabilities.

Pool is wordless picture book of many contrasts: silence/noise, stillness/activity, black & white/colour, reality/imagination, surface/depth. I think these are some of the reasons it works so well. The relationship between the two main protagonists is powerful in its simplicity. From their initial hesitation on meeting, the boy and girl develop a close bond in their underwater adventure. The world they explore has been vividly imagined by JiHyeon Lee. One of my favourite spreads is the 'magical forest', with its coral-like trees, snout-nosed fish and weird blue-shelled sea creatures. 'Pool' is a celebration of friendship and the power of the imagination. There is so much to explore in the depths of each page. I could come back to it time and time again.

Love the books where you make up the story from the pictures, super fun for granddaughter...

I used this book as a writing prompt in my classroom, as it contains illustrations only. I had my students create their own stories based upon the pictures and then they had the chance to read other people's variations on the story! It was total fun and the students were extremely engaged.

Beautiful and imaginative.

Excellent.....my grandchildren loved it

I gave this to a friend

We love looking at each illustration and finding funny things happening. This is a good book for calming at bed time and it's fun to discuss the illustrations.
