Well for an English book I think this is definitely one of the better ones. It is easy to read, well

organized and if I had one complain the font gets a little small but I did not mind doing assignments from this book compared to the other English books I was forced to use.

Bought this book for a class. Read only a couple excerpts from it so far, but they were well-written. This book probably serves well the purpose it was meant to- a collection of good essays for English students to read. It gets only 3 stars because it's not a book I would choose to buy on my own.

I needed this book for my first college English class for Essay's, and i saved a ton of money on here as compared to buying it at the school. The teacher requested the long edition, even though every story we needed to read was in this shorter, and MUCH cheaper edition. I saved over \$50 for this book, and do not regret a thing.

The only thing I could really complain about is that it didnt come wrapped in plastic, like a new book would suggest it would be... However, i have been able to use the book and it was exactly what i needed for my English class. I also wish it came on the kindle, this wouldve been a great book on the kindle with the way they organized it...

Never got it. I needed this book for class, and because i waited so long for the book, i'm a few weeks behind the entire class. I dont have enough money for another book, so if you could please refund me, i'd appreciate it

The book came in excellent condition, and much more quickly than expected. I needed it to make a complete set for classroom use, and appreciated having it in time to begin my lessons.

This book was in better condition in my thoughts than what you advertised. I look forward to getting more of my college books from you in the future.

for my class project and it helps me to complete my final project.
