Customer Reviews

I really enjoyed this book because you could tell that it was written by somebody who loves what they do and loves it to the point that she wants to share it with others. I never knew that much about essential oils but this book made it easy to learn and understand just what essential oils are and what all they could be used for. It's amazing just what health benefits these oils can give. Another part of the book that I enjoyed was how to use the essential oils for things that we use everyday, such as aftershave. An added benefit of the book was how to use these oils in conjunction with massage. My wife loves being massaged and I think these oils and practices would be a great addition. Thanks Marta!

Marta really knows her stuff! If you want to learn about aromatherapy it's best to find a practitioner who can teach you how to mix everything up in the right way and how to use it correctly. There are so many formulas in this book it's crazy! Make sure you stock up on your essential oils because you're going to want to try some of these! I thought the pictures in the book were a nice touch...gives the reader a little glimpse into the arsenal of holistic practitioner. Inspiring to say the least!

I always been wanting to take a short term course in school to learn about Aromatherapy but now I don't have to, when I started to read few books on kindle ; Marta's book about Aromatherapy Recipes got my full attention, the way she explains the details and recipes are easy to follow because she is the real deal. She is doing it and she is the expert. Personally, I always get a regular massage anywhere I travel and I am addicted to it. Now, I don't have to go to school to understand Aromatherapy because I bought this book and I can follow Marta's recipe and create my own Aroma/Oil for massage especially for headaches. I am glad that I found this book.I will recommend this amazing book to anyone.

To be honest when I thought about aromatherapy I thought that it had to do with candles and sweet smelling oils. Boy was I so wrong. A friend of mine recommended this book to me as I shared my concerns to her that I have lost the tone in my legs and she recommended aromatherapy.I have learned a lot from this book, it has taken my understanding of oils to another level. I appreciate that the author has taken the time to write about herself and let her readers know that she knows what she is writing about. I was amazed to learn that aromatherapy can be used to ease headaches, dandruff and so many other issues.

Love this book because:First, Marta relates choosing different schools of aromatherapy to find your own way of living in life. There are so many choices out there in this world. It is hard to find the "only" Bible in life, since different people view things differently through their perspectives. Love this concept!Then, I really really love that this book focuses on different situations where you can apply aromatherapy. And I can personally relate to those situations and easily apply simple steps as given.And seriously, because of this book I love aromatherapy more;)Great stuff. Highly recommended.

I like the recipes in this book. It was interesting to see the variety of ways that these Essential oils are used and how to use them in a fun and relaxing way.

There are some great new fragrance recipes in here, combinations that I hadn't thought of. It's great and friends ask for me to make some fragrances for them.* I received this product free or discounted in exchange for my honest opinion

I'm new on especial oils, this book is: Easy to read Keep you inform And give you more hints in you want to keep reading But I would it love if she gives names of companies where she buys her oils or a list of good companies . It's hard and overwhelming to trust if you're a beginner like me.
