Standing Tall: A Memoir Of Tragedy And Triumph

Synopsis

“Lots of people have dreams, but C. Vivian Stringer is the dream—a coalminer’s daughter who believed when her Poppa told her there was no obstacle she could not surmount. And she lives that dream, teaching others to rise up to meet challenges, turning underdogs into champions again and again on and off the court. This is the quintessential American story, of a woman and of a family pulling together against the odds. Standing Tall offers an important message of hope to so many. John Chaney, Hall of Fame college basketball coach At a time when heroes are too rare, C. Vivian Stringer sets a shining example. She has time and again shown character, fortitude, and heart, both on and off the hardwood, and in the face of unbearable loss. In Standing Tall, she shares her remarkable life story, inspiring us to find this fortitude within ourselves. “Work hard, and don’t look for excuses,” Stringer’s parents told her, “and you can achieve anything.” But her faith and perseverance would be tested many times. A gifted athlete, she had to fight for a place on an all-white cheerleading squad in the sixties. In 1981, just as her coaching career was taking off, her fourteen-month-old daughter, Nina, was stricken with spinal meningitis. Nina would never walk or talk again. Still grieving, Stringer brought a small, poor, historically black college to the national championships—a triumph hailed as “Hoosiers with an all-female cast.” In 1991, her husband, Bill—her staunchest supporter, the father of her children, and the love of her life—fell dead of a sudden heart attack, but that same year, she led yet another young team to the Final Four. Through these dark times and others—including her bout with cancer, shared here for the first time—Stringer has carried her burdens with grace. Given her history, it was no surprise that she led her team to respond to Don Imus’s slurs with dignity and courage. Standing Tall is a story of quiet strength in the face of punishing odds. Above all, it is an extraordinary love story—love for the game, for the players she has coached, for her close-knit family, and for the husband she lost far too soon. It will resonate long after the last page. From the Hardcover edition.

Customer Reviews

Starred Review. Move over, Horatio Alger. Stringer's inspiring story of rising to the top through hard work and the love of a close-knit family is one of the strongest sports memoirs in recent years. The oldest child in a large family that stressed education, teamwork and dignity, Stringer manifested all those values in nearly four decades as a basketball coach. As the first coach in NCAA women's history to bring three different teams to the Final Four, Stringer has loads of fantastic stories to share, particularly the turnaround that resulted in the 2006-2007 Rutgers women moving from the bottom of their division to the top, winning the nation's respect even before their dignified response to Don Imus's slurs. This memoir is also about winning off the court, as Stringer describes the heartrending trials that have tested her endurance and faith: a major crisis with each of her three children; the sudden death of her beloved husband in 1991; and her own quiet struggle with cancer, discussed openly here for the first time. Karen Chilton's performance is strong and memorable, and Stringer herself reads the introduction. Copyright © Reed Business Information, a division of Reed Elsevier Inc. Stringer is the head coach of the women's basketball team at Rutgers University, the team that radio-host Don Imus, in a mean-spirited attempt at humor, disparaged with a crude, racist remark, setting off a national firestorm. It's to Stringer's credit that the Imus incident takes only a few pages at the end of the book. This is a memoir of a coaching career and a life in which a lout with a microphone is merely a bump in the road. Stringer recounts her childhood in a small Pennsylvania mining town with five siblings and parents who prepared their children for success with love and discipline. After beginning as an unpaid volunteer coach at tiny Cheyney State, Stringer went on to revive a dormant program at Iowa before moving to Rutgers. Along the way, she recounts the personal tragedies that have paralleled her professional success: an infant daughter who contracted spinal meningitis; a husband who died

at 44; her own bout with breast cancer. This is an emotional roller coaster of a memoir, but it is told with humor, passion, and gratitude. An inspiring life story --and certain to get plenty of attention. --Wes Lukowsky --This text refers to the Hardcover edition.

As a women's basketball fan I was familiar with C Vivian Stringer and her Rutgers team. What I wasn't familiar with were all the details of her upbringing in a poor but proud family and the struggles she went through as an African American, wife and mother dealing with a high profile career, illness of her daughter, death of her husband and various other unique challenges. Coach Stringer presents all of her struggles in an honest and humble way. I especially enjoyed reading how she developed her coaching style over the years and seeing how she put her values into practice. If you like "overcomer" type stories or sports stories, you'll enjoy this, its the type you can't put down until you finish. I can understand now why her players seem to have so much affection and loyalty for her.

This is a must read book for all those who inspire others and looking for inspiration to persevere against all odds and still find the courage to give of themselves despite the many obstacles that are placed before them and those same obstacles to catapult themselves to success while helping to fulfill the dreams of little girls who have turned into beautiful young women along the way; Magnificent!

I started following Rutgers Women's basketball just a few years ago and wanted to find out what makes C. Vivian Stringer tick, as well as to catch up on earlier teams that she coached. The book filled that need admirably. The writing is excellent, details informative and the message uplifting. She has a stoic and yet combative view of life and her story explains why. No book will ever reveal what a person is like and if you've ever heard her speak, you know that Coach Stringer has poetry in her that barely peaks through in the book. Her reaction to the recent Tennessee clock debacle included, "I seem to have an eraser after my name..." The perpetual struggle that she is involved in as she coaches and deals with her other challenges and the effect that she has on others is what she is and she is a treasure.

Most of us heard about her from the fall-out of Don Imus' disgusting comments regarding her team; but in her memoir you will learn that the strength of character she showed during those dark days was ingrained in her from her solid family values. Coach Stringer is a woman whose challenges

have only served to make her stronger, better, wiser. And those of us who are privileged to know her can only be amazed by her talent, beauty and fortitude. I can honestly say that the C. in C. Vivian Stringer truly does stand for CHAMPION!

C. Vivian Stringer's book is written with such exceptional passion for life that you can't help but feel it. After reading her book I wanted to cry for joy at all of the lives she has touched and inspired. My husband devoured it in a few days. Every young person should read this book. Every woman will feel prouder and every man will be called to a higher standard. Thanks for sharing your amazing story Vivian. My feelings that we should all "live like we are dying" was embraced by her experiences. Robin Dilg

A legend in the game.....her concern and compassion for her players and the lessons she imparts are those that should be learned by the new coaches coming up. Thank you, C. Vivian, for being an example of a strong woman.

How important it is to have women, young and old, to know the power and authority that lies within and that you have the perfect example in "the Coach" of all times. Ms Stringer has given us this jewel at a time more important than any other that I can remember when so many young women are suffering from low self-esteem and rejection and so many older women are caught in the throws of life. Thanks to Ms. Stringer we have renewed HOPE!!!

Unfortunately I lost this book and never replaced it. I enjoyed reading the first chapter. Vivian is a very strong lady and I wanted to read her story. This is not a rating only because I was not able to read the book.
