# Pretrial Advocacy: Planning, Analysis, And Strategy (Coursebook)

## Synopsis

Thoroughly updated and revised, **Pretrial Advocacy: Planning, Analysis, and Strategy, Second Edition**, provides an excellent conceptual and practical foundation for pretrial litigation. With a new page design that makes it user friendly for both teachers and students, it demonstrates the realities of law practice while maintaining an emphasis on case theory. This book comes with 2 CD's and a DVD with real-life examples, software, and documents.

This Newly Revised Edition:

- DVD with video of the crime scene, deposition demonstrations, computer animations, and software slideshow
- Checklists at the end of each chapter for easy reference and teachability
- CD with Case Files for civil and criminal cases with realistic document
- New Teacher's Manual, including a CD with Actors Guide (Witness materials for role-play of the Assignments)
- Website for faculty and students: digital downloads, faculty teaching tools and discussion, articles on pretrial and trial advocacy, settlement, and links to software
- New Chapters in the Second Edition:
  - Taking and Defending Depositions, with effective techniques and strategies
  - Discovery with E-Discovery emphasis
  - Creating Visuals: for pretrial, trial, and settlement featuring technological innovations
  - 77 Assignments for student role-play performance and Discussion Questions featuring Daubert issues and diverse expert witness fields
  - Up-to-date ethical considerations based on the ABA Model Rules are included in the text and assignments

ISBN-13: 978-0735563667

Product Dimensions: 7 x 1.4 x 10 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)

Average Customer Review: 2.9 out of 5 stars 10 customer reviews

Best Sellers Rank: #3,386,495 in Books (See Top 100 in Books) #79 in Books > Law > Rules & Procedures > Depositions #568 in Books > Law > Rules & Procedures > Trial Practice #25862 in Books > Textbooks > Law

## Customer Reviews

Book arrived quickly, but the quality of the book is low. The paper is thin, the cover is thin, and they actually gave us CD-Roms and DVDs to use. Most students have laptops that don't have disk drives. The publishers could save money by simply providing the access code to online content. Maybe they could take that savings and put it into paper quality.

I like the layout and I found, along with other classmates, that this book was amazing. Informative--as law books tend to be. However, many law students can attest that studying law is not exactly fun. This book brought back the fun in law. You really felt like you were working your first case. I cannot give it high enough praises. The only drawback for some is the way the book does not exactly follow a linear line and your review chapters of the book multiple times. Still, I found that the reviews were relevant and easy to read. This is one class and book you are going to love.

Boring; not a good book (used in Motions Class); hated how you had to keep going back and forth between the cd text (which is a 500 page book in itself) and the exercises which constantly refer back to it; hard to correlate and wasted a lot of money on printer ink.

Book did not come with the CD that was required to complete the exercises in the book

The product was fine. The DVD and web materials were also helpful. I wish my course had been better aligned to the book.

Most of this book was obvious to anyone who had been through a semester of law school. It reads more like an undergrad book.

Well laid out, very helpful upper writing text. The checklists are helpful when proofing assignments. I'll be keeping this text.

I am using this for an intensive course and it's serving its purpose. It's easy to read and understand. The materials on the CD are helpful. It's nice that they are in PDF form on the CD so they can be saved to my computer and I do not need to have it at all times.
