## Customer Reviews

Tony is one of my favorite business books authors and I know his ideas well. Even though, I've never considered getting his quotes book. It turned out to be a great

opportunity to read his quotes more often and therefore get inspired. If you love Tony Robbins, you will love this book. The author compiled really the best quotes. Otherwise it would be hard to re-read these brilliant ideas and exclamations over and over again.

There is never too much of Tony Robbins in my life. This incredible motivator and public speaker is always inspiring me. In my opinion, people should really watch less tv news and other stupid shows. On the opposite, they might like listening to Tony Robbins and other similar people who teach real stuff. I feel much happier as soon as I started implementing his ideas into my life, and it's only the start of the path!

Some of the most inspirational quotes from a best-selling author and motivational speaker Tony Robbins can be found here. Simply reading these quotes has me ready to take on some of my bigger challenges. Thanks to the author for this inspirational read!

This book forces you to look in the mirror and sincerely answer the questions. People tend to blame someone else when the things are not going well. However, this is not a good starting point. Tony Robbins explains: you are the reflection of all.

Nothing i didn't like it. It's pretty straight forward. Excellent to help build a quote collection. Also I liked the recommended reading list as well.

Excellent snapshot of the master Tony Robbins and his ability to discuss topics that result in massive action...only if you pay attention.

Every book he wright's is amazingly helpful.

I love Tony Robbin's books and this ebook is a very handy and great reminder of some of Tony's best quotes. Don't just read this book though, read the original books and find some more quotes but this collection of quotes are great reminders and time saving quotes. My only suggestion is that you read the quotes and really think about quotes, just don't read them.
