This has been a life-changing book for my husband and me. He read this book to me when I was suffering from anxiety and depression. Morning after morning, I would lie on the couch while he read. I found it calming, and it helped me focus on something other than my anxiety and depression. At first, I was unable to discuss it with him, but gradually, with time, counseling and medication, I got better, and we began having wonderful discussions about each day's reading and how it applied to our lives. At some point, we began taking turns reading. We took this book on trips with us, and would read it in our car or hotel room. If we missed a day, we missed it. When we finished, we tried several different inspirational books, but so far, nothing has compared. I've just ordered DailyOM: Learning to Live, and look forward to reading it. I'm feeling much better these days, and my counselor tells me whatever I've been doing, keep doing it! At some point, we will re-read DailyOM: Inspirational Thoughts for a Happy, Healthy, and Fulfilling Day. It's that good, and will be a permanent part of our library as a "go to" book when we need gentle guidance with a positive perspective. I can't recommend it highly enough. Brava!

I am already on the email list for DailyOm for years now. It was especially helpful when I would arrive at work, open my email and read it before the day started. I have shared the site with a few friends and since purchasing the book, will be sure to give as gifts on Friendship Day in August. I have been reading the Learning to Live in the morning and DailyOM: Inspirational Thoughts for a Happy, Healthy, and Fulfilling Day in the evening just before bed. I am not as consistent as I would like but enjoy it and think this would be great as a book club choice to discuss.

Daily Om is great

Perfect for a waiting room or exam room in a clinic for patients to read, been signed up for these emails for 3 years now.

Love this book!!

I belong to the DailyOM daily email list and this book is basically all of the best ones put into a book. Even though I belong to the email list, I still HIGHLY recommend this book. It makes a wonderful coffee table (or bathroom) book. Randomly open the book and the story is inspiring and thought provoking. Everyone interested in self-help, philosophy or the law of attraction, what the

bleep kind of things should have a copy of this book.

I recently started to do yoga and noticed my teacher was reading quotes out of this book. I decided to buy it because I loved what she was reading to us. I read it daily and it keeps me feeling positive and calms me before I start my day.

Most people have their morning coffee or tea to wake up the body. This little book is like coffee for the soul. Not only does it offer practical suggestions, but it also wakes up the brain causing us to think. Going to buy more to give to family and friends.
