Customer Reviews

Read this on a long haul flight back from a conference in Vegas and realized that I got more out of this book in a 5 hour flight than I did at the 4 day conference I had just come from.

Simple, straight-forward but 'not often spoken about' tips and strategies.

It's funny because I felt totally blind before I read this book. Reading the examples that people gave and how much they made is such an inspiration. I urge anyone to try this and live the life you've wanted!

It has some good information in it. The part I struggled with the most is that there are SO. MANY. TYPOS. There is a typo on the first page of the first section. Not off to a good start. I have a problem giving the author credibility when there are so many grammatical errors throughout the entire book. I have the kindle edition, so maybe (hopefully) this is not the case with the print version. Would be a good book for someone at the very beginning stages of launching an email marketing campaign. Sections are short and to the point.
