Customer Reviews

"As a longtime vegan, I'm always looking for quick, easy, and yummy new recipes, so for me, PETA's Vegan College Cookbook was love at first bite." - Daniella Monet "Thanks to PETA's Vegan College Cookbook, you don't have to be a master in the kitchen to make yummy vegan food!" - Chef Chloe Coscarelli

People for the Ethical Treatment of Animals (Norfolk, Virginia) is the largest animal rights organization in the world. PETA2 is the largest youth animal rights organization in the world.

Finally, what I was looking for. An easy and realistic vegan cookbook. This is useful for anyone who doesn't want to spend much time on food preparation. Everything can be done in the microwave, but, honestly, you can add steps to suit individual taste. I have a big collection of vegan cookbooks, but they mostly are not used because I don't want to spend a few hours a day buying ingredients, chopping, cooking and cleaning. I do it for guests and if I'm in the mood, but never for every day. This cookbook adds options for us minimalists who want to eat well but keep it simple.

This is perfect for people who don't have time to cook, and throw everything in the microwave. It's very simple. It is aimed for college students who eat ramen noodles and are always on the go. My biggest disappointment was that it doesn't have any pictures inside, which makes it hard for me to page through and find something that looks yummy to me, when it's an endless blur of black text. Although the recipes have microwave directions, one could always make them on the stove instead. Btw, Fake meat sounds unhealthy when you use the word "fake" but really is not all that unhealthy. It's made from vegetables and plant based items not plastic. It's a replacement made from healthier things not a plastic ham. It has less cholesterol and doesn't contain hormones. Hot dogs made from meat are what I'd really be worried about, do you know how that is made? If you don't mind cooking, I'd recommend "Oh she glows cookbook", it has beautiful pictures for every recipe, and are all Vegan. Look it up on .

It's awesome very simple recipes an taste is amazing. You don't have to follow the exact way of cooking such as boil instead of microwave.

Got this as a gift for my daughters vegan friend who is living on a dime. Cute little book but the recipes are BEYOND simple. Maybe better for college guys who want to go vegan and have absolutely NO IDEA what to cook. There are a few keepers in here like the beer bread.

I am well-beyond the normal college-age. I also own a stove. This book helped me a lot in the early years of wanting to experiment with vegan food. Years later (and more experienced at cooking/baking). I STILL grab this book for those days I'm in a hurry, lazy, etc. and just want a quick meal and I'm blank on what to eat! Tip: For those who may have food allergies or sensitivities, you can be flexible and sub most things in this book: For instance: For those avoiding soy: Just use coconut milk (or other alt milk of choice), use a rice-based, almond-based, or coconut milk-based yogurt, in appropriate recipes that call for tofu or sour cream or cream cheese, or if you can eat

nuts: use cashews or other nuts for certain soy-based sauces, cheeses. For vegan cheeses, use gluten and soy-free daiya cheese shreds or wedges. For gluten free: Use gf breads, gf flours, instead of oats, use quinoa (flakes or regular). (Example for the Knock-Oats, I use quinoa flakes vs oatmeal, and a soy-free peanut butter (Santa Cruz brand). For refined sugar-free: Use agave, maple syrup or coconut sugar. You can also make these recipes on a hotplate, stove/oven or toaster oven vs microwave if desired. Take this book with you when travelling, too! VERY handy! Also great as an emergency/disaster book, imo. I hope that they come up with an updated version of this book, soon what with the updated vegan products and tips for those with the ever-increasing food sensitivities and allergies.

Love this recipe book! Well written, great ideas!

This was a gift for my girls. Great easy recipes that they can make quickly.

Love this cookbook!
