Another wonderful book in Angie Grace's stress menders series. There is not a page in this book I don't like. The designs are complex, but fun. Each design is a little different but sticks with her style. 50 one-sided coloring pages, good for pencils, markers or gel pens. I prefer markers, put blank paper between pages to prevent bleed through or tear pages out to color. Pages are easy to remove from the book. This book will provide a bit of a challenge, yet still be relaxing and you can be creative and come out with beautiful results.

This is my fifteenth Angie Grace book and I'm enjoying this one as much as all the others. The pictures seem a bit overwhelming at first but as I start coloring the patterns start to develop and I'm always amazed by the way they turn out. Like snowflakes they are each different but equally beautiful.

I love the new designs. Each book offers something a little different, but sticks with the same art work we all have grown to love.

I've purchased all of the coloring books in the Stress Mender series, some more than once. Each new release has impressed me as better than the last. This new issue, Nourish, has lovely designs and none seems like any design seen before. Highly recommend this new book.

Better than her 5th book! I do wish there were fewer striped sections.
