Customer Reviews

Another new release highly recommended for quilters is Cheri Leffler's *Animal Parade: Adorable Appliqué Quilt Patterns for Babies*, which uses simple piecing with whimsical appliqué to make quilts for children. From using fusible appliqué in animal shapes to creating patterns and colors kids will love, this is filled with ideas and full-page patterns especially designed for babies. --Midwest Book Review, June 2014 This breezy book features eleven appealing quilts designed to delight babies and toddlers. The eye-catching colours and friendly faces of the featured animals are sure to captivate young children, providing those beloved early memories of sight and touch which I'd wager many of us have in our minds and hearts when we make quilts for loved ones. The designs are suitable for quilters of most levels, and have an infectious sense of fun that makes them

very attractive to embark upon. There is a good variety of colour, fabrics and techniques here, too; there's festive bright red and white in "A Penguin Playdate", autumnal country shades in "Kits 'n' Caboodle", and deep blues and oranges in the aquatically-themed "School Friends". The standout design featuring extremely cute giraffes, "Heads in the Clouds", is featured on the cover. The author advocates needle-turn applique, but also provides comprehensive instructions for those who prefer to speed things up a bit with a fusible web technique. This is a little gem of a book. --Popular Patchwork, June 2014

All of the quilts are perfect for confident beginners and experienced quilters alike and make great baby gifts. The backgrounds are quick and easy to piece and the tops are embellished with adorable animals that convey a sense of innocence and friendliness. --Quilt Trends, Summer 2014

Cheri Leffler lives in Helotes, Texas, with her husband, Ken. She has been teaching quilting since all four of their girls were little. Cheri's had many rewarding adventures in her nontraditional career. She's been an art director, a stay-at-home mom, a piano teacher, a quilt-store owner, and a substitute teacher. Presently she works at Memories by the Yard, a quilt store in San Antonio. She also teaches quilting classes and thoroughly enjoys designing new patterns.

Such great quilts! I reverse the patterns so I can iron on applique them rather than hand turned applique but I love these quilt patterns!

I bought this book to make a quilt for my nephew's babe. Wow, it is the best of the best for young children and babes. It not only is so easy to follow, but the expressions of those sweet animals will melt every one. I give it a ten!!! just hope all my friends are going to have more babes so that they can be blessed too. Cheri you have outdone yourself!

Delivered ahead of time and a clean package. As for the product it is just what I wanted.

Applique is my favorite quilting technique. This book has loads of pattern. You will want to make

them all.

Love this book. Highly recommend for making child quilts. Wonderful animal drawings. Make really cute quilts for the kids or grandkids!!

Great book, great customer service

Wonderful book with easy-to-make, adorable quilts. Directions are clear and well written.

Easy to follow directions and combines both pieced and applique processes....best of both worlds. All the patterns are adorable! I'm just finishing up the frog quilt and excited to make more quilts from the book!
