Laura 'Lupin' Howard is completely obsessed with felt and set up her online store Lupin Handmade in 2007 (lupinhandmade.com), selling a range of adorable felt brooches, flower headbands, animal masks and other fun stuff. All her felt-works are 100% hand-stitched, and all the pieces are cut by hand from her own original patterns. She uses no mechanized cutters, sewing machines or glue - everything is literally handmade. Her work has been featured in a number of magazines, including

Cloth, Metro, Vogue and Sew Hip.

I had been introduced to this wonderful world of felties after talking to our Quality Assurance Assistance at work. We all work with special needs individuals. Not only is this a fun-fact filled book, full of ideas that target all skill levels, but the colors and the attractiveness of the page displays is so inviting. The patterns are so easy to trace, directions are so simple to follow, yet the end result looks like a million bucks!! I work with challenged individuals in art therapy. We are always looking for cute ideas to make for gifts or just to pass the time. I just adore the book. My first project was that bunny you have on the cover. Is he ever adorable!!!! If this author comes out with a book that entails 3-D style 'felty's' count me in.....I'll have to have that book too!!! I do need to suggest that the wool felt works better than the acrylic type. Time for me to go craft some more!! Thank You All!!

I bought this book to take along with me on a trip with a stack of felt and I was not disappointed. Grab some tracing paper or tissue paper so that you can trace the templates, which you can also run through the copier and reduce or increase, depending on the size desired. The directions/instructions were easy to follow, and I found the crafts to be cute. Not all of the crafts were something I would use, but I would take one idea here and then combine it with a character there, and make my own version of the craft. LOVE the Scandinavian influence on the embroidery, and I hope my items look as cute as the author's when I get a little better at it. I hope she makes a book 2.

It's got some okay patterns, but nothing terribly special. Probably something a tween learning to embroider would enjoy. I'll be rehoming it - there are better books out there on the subject.

The projects in this book are just adorable. They're fairly easy to make, too & even novice crafters won't have a hard time following the instructions & enjoying the end result of their efforts. :) You can also mix & match, tweak & get tons of ideas from the projects to create your own unique felt projects. Also perfect to as little gifts.

This book has lots of fun ideas to use up your felt stash. I am making a quiet activity book for my granddaughter and I have used the pattern for the flowers and butterfly and will be using the bird also. I am looking forward to using more of the patterns available in here.

Super cute and super pretty. This book gives you hours of fun and creativity.

This is a very good book. It has lots of new, good ideas from the books I already have. My grandchildren like to make things with felt because it doesn't ravel like material does. They have made several things from this book and have enjoyed it. With Christmas coming up, there are some good ideas for gifts.

there are some really neat things in this book that i will definitely be making. it isn't my favorite of the books i've purchased, and some of the things in here i wonder who would ever use that. but i will be using the templates for sure and making some cute jewelry and hair things for my daughters.
