Customer Reviews

Used this book for our week long Maui trip; it was perfect. I always use Lonely Planet books as a resource while planning my trip and while on the trip. I like how they break down the areas of the island and also divide the book into sections that geographically makes sense while out exploring. Lonely Planet also does a great job explaining the history and culture of the island. I plan on keeping my dog-eared and sand covered copy to read when I become nostalgic for our fun trip. Completely recommend this book!

Gave this as a gift to my boyfriend in preparation for our trip to Maui. The book looks great so far, but I'll report back after our trip! Please note that this does NOT come with a pull out map - that's the wrong picture in the description. I even returned the first one and reordered, hoping for the pull out map, but no luck. Doesn't matter because I downloaded an app that connects to GPS so it'll be better anyways, but I do wish it had been accurately depicted.

Not too easy to use. Don't expect to flip it open, point with your finger and say to yourself; 'let's go there!' Seems like too much work to 'discover' anything about Maui using this book to me. I'm leaving it in the bathroom for reading material. I've got a couple months before our trip, so maybe it will 'inspire' me....

Good book and it served us well on our vacation

Awesome info especially on good eats. We used a few recommendations from the book and wasn't disappointed. Highly recommend especially for first visitors.

Amazing guidebook. I read a little before my trip and mostly used it to find nearby beaches and restaurants. Also had an awesome guide for the Road to Hana!

Very helpful on our honeymoon in Maui - great background on the island and really useful

suggestions on what to do, where to go, where to eat etc. Invaluable and well worth the money!

Just started reading it, it arrived today. Happy to have purchased another Lonely Planet guide! Can't wait to test out my knowledge...
