Customer Reviews

This was the first full-color House of Collectibles book, and pulling it together was a lot of work but also a great deal of fun. Harry Rinker and I made a trip to Replacements, Ltd., in North Carolina, to do research for this book and the two others in the series, and that was an event in itself. I've never seen so many pieces of china in one place at one time! I have to admit, my china pattern is not in

the top 500 -- obviously, it's a very well-kept secret an elite few of us are sharing!-- Randy Ladenheim-Gil

The pictures are too small to really see patterns, and the descriptions are OK, not interesting. My fault for not investigating the book more. On the other hand, the supplier was outstanding. Everything was done quickly and safely.

As a novice dealer of new and antique dinnerware, this book has been an invaluable resource for identification and valuation. You will not learn a lot about any one manufacturer in this book because it focuses on the most desirable PATTERNS, featuring clear photos and basic pricing information. I find myself leafing through it often, even when I'm not looking for a particular pattern. If you don't specialize in one manufacturer's wares, but buy and sell a lot of different patterns, you really shouldn't be without this handy reference book. I hope Mr. Rinker will team up with Replacements to produce Volume II - The Top 1000 Patterns, 501-1000.

Good Read !!

The book goes well with my interest in dinnerware. It is a tremendous help with my attempts to better identify numerous patterns within my family. I was pleased to find the book for sale, especially a new copy. This book is like having a trip through the Replacements, Ltd warehouse. It has helped

me determine what patterns I want to register with Replacements, Ltd. It will continue to serve me well for years to come.

While this book is not exhaustive nor is it intended to be, it contains great information on the most popular patterns in a number of categories. I would say this is most helpful to serious collector of dinnerware or a person who sells vintage dinnerware.

Found out that none of my vintage china patterns were listed :(Despite that, I still found the book interesting.

It was a gift and they loved it!

Perfect, exactly as described& arrived early.
