Inspired By ... The Bible Experience: Old Testament

Synopsis

The most ambitious, critically-acclaimed presentation of the Bible ever produced, Inspired By ... The Bible Experience Old Testament features a star-studded cast of almost 200 performers. Highlighting the cast is 2007 Academy Award-winning actor Forest Whitaker as the voice of Moses, along with Angela Bassett (Esther), Cuba Gooding, Jr. (Jonah), Denzel and Pauletta Washington (Song of Songs), LL Cool J (Samson), Eartha Kitt (Serpent), Bishop T.D. Jakes (Abraham), and Bishop Eddie L. Long (Joel) among others. The Bible Experience uses Zondervan's most accessible and up-to-date translation, Today's New International Version (TNIV), and includes dramatic performances set to an original musical underscore by the Prague Symphony Orchestra and Hollywood-style sound design created at Technicolor Studios. The Bible Experience has become not just the bestselling audio Bible, but also one of the all-time fastest-selling new Bibles. In addition to record-breaking sales, Inspired By ... The Bible Experience has received unprecedented consumer satisfaction and national recognition including numerous five-star reviews on .com, an Audies Audiobook of the Year (the highest honor of the Audio Publisher's Association), an AudioFile Earphones Award, and a nomination for an NAACP Image Award. The Old Testament features 60 digitally mastered audio CDs and a convenient carrying case.

'...a full show of music, sound effects, and a dazzling array of celebrity voices. The producers...put together a cast of...actors who deliver a rich, diverse rendering of the contemporary Today's New

International Version (TNIV) translation in gospel-meeting style. Listeners are treated to a sort of aural kaleidoscope with layers of voices, sound, and music....The lavish production pulls out all the stops....If a modern multimedia production experience is what you're after, enjoy the fine voices and often dynamic dramatized readings.' -- AudioFile (AudioFile)

Inspired By...The Bible Experience is exactly what its title indicates, an experience. I've listened to many audio Bibles over the years, but none have achieved what The Bible Experience has, which is to bring the Bible to life in a very real, compelling, accessible and experiential way. I would strongly recommend that you listen to it and share it with others. I guarantee it will change the way you and they engage with the word of God.' -- John C. Maxwell, Author, New York Times bestselling author

I am completely satisfied with this product. I listen to the Bible everyday in my car. Of course, The Word of God is food for my soul. The sound effects on the CDs are amazing. I did not realize the surround sound of my car speakers were so good. The other day while listening to a chapter in 1 Kings, I thought a lion was coming out of my driver side door, it startled me, then the sound of thunder caused me to look up at the sky to see if it was going to rain. This is a great experience.

I had a copy and I bought the New Testament for my wife and she has been listening to it in her car as well as I thinking about buying a few more copies for my children I have three Young women in their 20s. And they all have a relationship with God. But I know they will get a lot out of CD's and I know it's not to replace the word the Bible but to enhance your experience with it.

I received the new testament a few years back as a gift. The first and last tracks on every disc are promotion tracks. The first time you hear the promotion track it is great: however way over done the 1st and last tracks become annoying at best. When I purchase the old testament same thing 1st and last track are promotional tracks still annoying. However in the old testament about every few tracks they have added music tracks from various people some who can not sing and just plain SSSSSSSssssss screaming in the mic. (YUCK) Plus the music and background tracks can be annoying and sometime drown the information from the Bible, if that your thing okay but I find it a distraction from learning the word of GOD. Be ready to advance the tracks and the beginning and end of every disc, and in the old testament about every four tracks. Had a good product and screwed it up. Also if you put it on your computer all the disc and tracks read matthew matthew matthew both new and old testament. Hours of typing to straighten it out Track names and disc names ASCAP does not have correct information.

I enjoy getting the word on my way to work. The dramatic music makes it more interesting than someone just reading the word. I can recognize most of the stars by the sound of their voices and enjoy the representation of the biblical characters. This is good family listening. Now...some of the crowd rustlings are annoying. Once you hear them your mind can't ignore it.. And the recaps from the cd before is a good idea especially if you are not listening in one continuous sitting. That being said if you are listening in one sitting it's a bit long and makes you feel like didn't I just hear this? You are not crazy this is intentional. or at least I hope it is. All in all it's a good collection to have

The printing press is only a few hundred years old; Let us not forget that the bible and the word of God is an oral tradition. It is meant to be "heard". We have the text for greater accessibility, but that does very little if we don't read it. As a spoken word poet, this text comes alive. The score is perfect. Moreover, it has deepened my understanding of the kind of God we serve. This is a special project. Especially for those of you with long commutes, it makes me look forward to traffic to find out what happens next. Please check this out. It will not disappoint, especially for those who have trouble

reading the bible. You will have a deeper understanding of the context when you read.

I have been trying to read the bible for years; I've tried many different strategies and was unsuccessful. I am so grateful for this format. To hear all my favorite actors read and project the emotions, the background sounds of animals and the crowds are great. The actors speak as if they are experiencing the events they are reenacting. I have a better understanding of the context of where most of the phases and exerts that I have heard of most of my life come from. I am more engaged in listening then I was in reading it myself. I would recommend this for the sheer entertainment value alone.

I really enjoy listening to the bible especially with the sound effects. I like the different voices they use while reading it makes it more interesting. Every CD has the same beginning and it comes through loud but it isn't a problem to just skip to the next track. I would recommend this product.
