## Customer Reviews

Children's Books--First Place This book is a fascinating way to learn about the saints. The saints are grouped in specific categories but then the final search is Saints in the Making which gives the children a look at what it takes to become a modern day saint. As always the second part is a parent's guide to the previous searches and provides an excellent teaching tool. Recommended for children of all ages. --Catholic Book Awards

PHILIP D. GALLERY is a published poet and teaches a writing workshop. He lives on a Christmas tree farm in West Virginia with his wife and four children. JANET L. HARLOW studied art design at Montgomery College. She creates pen-and-ink artwork by commission but began her career in book

illustration recently with the best-selling *Can You Find Jesus?* She and her husband live in West Virginia. They have a daughter and a grandson.

Great look and find book to learn so many things from. Got this book for our daughters First Communion. They really like it and really spent a lot of time looking at it and finding the saints. It offers a chance to look into the lives of many saints. It is beautifully colored and the pages are thick and not really thin and should hold up to some use. This would be a great book for First Communion and even those with little ones that need to be occupied at mass. Will be buying this in the future to use as gifts since our girls like it so much. Thanks for making such a good quality Catholic children's book.

Had been looking for a child's book of Saints for a rambunctious grandson's First Holy Communion - one that truly told about the Saints in a respectful and informative manner but also one that would hold his attention. THIS IS IT!! I got an A+++ from his parents and was informed that he even takes it to bed with him - he absolutely loves it!!

I first bought it for my kid's friend's (5yo) birthday present. My 7 yo, 5yo, and me peeked through it, and we fell in love with it. This is like an "I spy" book where the kids look to find a picture. What's good about this book is it gives history of saints and their virtues. On the back pages of this book, there are some instructions for parents who want to even talk further to their kids how to follow the saints footsteps in real world.

I love this book. I bought it as a gift for my granddaughter. It features so many of the saints with information about different ones, but at the same time it will be fun to search through the pictures to find them. It is just like the *Where's Waldo* books, but more of a Traditional Catholic version. Well worth the money.

Like a Catholic version of *Where's Waldo*, but also has extra layers of teachable moments if you want to go deeper. There are extra things to find in the back once you've found the items on each page. We love it!

The PERFECT Church busy book for the preschool set. No crayons or other risky equipment for Church, but it keeps both my 2yo and my almost 5yo quietly entertained for large chunks of Mass.

Nice, but a little chewy unless older kids. Still, nice putting-into-context book without necessarily being a biography. Try this one.

The drawings are detailed and each page has multiple saints not just the hidden ones you have to find. There is a brief bio on the saint you have to find, just enough for young minds to remember. I would follow with the feast days and do this book, or save it for all Saints day.
