Customer Reviews

Being a long term Grapeshisha fan and having been to Dubai at 30 times in my life I found this book awesome. I learned new things especially about the culture nuances in Dubai and mindset of the city. I don't normally read city guides for entertainment but the Hirjis irreverent style and humor made it actually a fun book to read. So if you are going there or been there I would strongly recommend reading or scanning this. I promise you accurate data, a continuous gentle grin on your

face and laugh out loud occasionally. This is a happy book.

The authors try to scare you more than necessary. They are probably from the local religion and wrote only from their point of view.

So I don't actually travel to Dubai for another couple of months, but if all he says is accurate than I feel well prepared. I very much enjoy the detail in planning an outing as he mentions if you are at this building then hit this and that as well. I also like how he suggests times of day to go places. This is a tidbit missing in many travel guides.

This was very helpful in making the most of my short business trip to Dubai. Because my client handled my hotel and meals, I didn't use the sections on restaurants and hotels, but the rest helped me understand Dubai and appreciate the things I saw on a half day tour I was able to squeeze in.

I have been a big fan of Grapeshisha since its launch with its quirky, fun and informative outlook on the UAE. This guidebook on Dubai takes it to the next level with a detailed deciphering of the old and the new, with clarity. Highly recommended.

It was very helpful as we prepared to travel to Dubai (and Abu Dhabi). The book hit all the key spots to visit, where to go, what to do, and gave good insight on what to expect during the trip. For the money, this is as good a book to prepare for a Dubai trip, as you will find. I highly recommend it.

This guide is excellent. I'll have it on my kindle app, next time I'm in Dubai for business for sure. Not only are there great listings, with phone numbers etc. there's also opinion, selectivity and a cultural translation that makes you street-smart on the ground! With some occasional laugh out loud humour!

A very comprehensive guide yet the tone is easy to read and makes me excited about my imminent trip to Dubai. It gives a great overview of the best restaurants and bars and the maps are a good touch. It provides sample itineraries based on the duration of stay which I found particularly helpful.
