## Customer Reviews

Striving to be your better self should not involve lying, stalking and disCONnecting from your spouse,kids,family and friends at any time.this is a persons support system. .... creepy stuff!!!!

Even though it lists the author as having a masters degree, it reads like the author has a 4th grade education. Sentences and punctuation are terrible. All the same it looks like an inadvertently honest look inside the peculiarities of the organization.

It is not a critical analysis but rather a member trying to recruit other into their religion

Really dumb book.

good

I thought this was written by Tom Cruise.... Boy was I wrong... Having reached OT 7 status, I grabbed my e-meter, tin foil hat, and my life savings. I then proceeded down to the local scientology building... To rectify this terrible purchase, I then proceeded to use my mind to travel back in time and stop myself from clicking the "add to cart" button from the app on my cellular telephone. The nice lady in the auditing room then hooked me up to a car battery looking device and took my wallet.... Something about "temporal interference".... I was told to enter my bank account and routing numbers into a keypad-looking device... This was so that the magnetic drift of the temporal vortex could be rectified.... After several hours of great concentration and straining... I developed severe hemorrhoids. Finally the lady told me that time travel would only be accessible at OT level 8...and that I would need to pay another \$10,000 to see any tangible results. Needless to say, I am disappointed.

I was glad to see that this book showed both positive and negative aspects of this religion. It was brief but informative. It is a good read for anyone wishing to know more about the beliefs of scientology as well as truthfully answering questions about its controversial system.

This pamphlet does not state what \$cientology is nor why the sociopath who created it did so. Nor does the pamphlet mention the fact that the business is organized crime, not a religion. The pamphlet's description promised to explain the criminal enterprise, but it does not do so: I consider

this pamphlet, therefore, to be fraud and I have reported it to .com as such. Skip this pamphlet. It is worthless.
