How To Disappear Completely For Survival: A Step-By-Step Beginner's Survival Guide On How To Evade Your Pursuers, Go Off Grid, And Begin A New Identity Without Leaving A Trace

Synopsis

If you had to disappear for whatever reason, say you were falsely accused of a major crime and wanted to escape a near guaranteed conviction, do you believe you would be able to do it? Disappearing completely without leaving a trace is no easy feat. Your information is held in literally hundreds if not thousands of private and government databases. There are security cameras everywhere (thirty million cameras in the United States alone to be exact). The authorities have professional training/experience and an unlimited array of expensive technology and resources at their disposal to track you down. For these reasons, vanishing completely and assuming a new life and identity can seem like an impossibility. But the truth is with enough careful planning and due diligence on your part, it is perfectly possible to vanish. Regardless of what your motivation is for wanting to vanish, this book will serve as the ultimate beginner's guide on how to disappear without leaving a trace. Here's the truth: disappearing completely is a huge deal, and it is not a decision you can make lightly. Disappearing automatically draws attention to you by the authorities, and it will change your life forever. But you may need to disappear if doing so would save your life or get you out of a heap of other trouble, so if the circumstances leave you with no choice but to try and disappear, then you will have to take matters into your own hands and it's fundamentally critical that you know exactly what to do. In this guide, we will outline a step-by-step plan for disappearing, evading the authorities, and starting a new identity and a new life. The specific steps that we will cover include the following:

- Step #1: Developing Your Plan
- Step #2: Getting Out Of Dodge
- Step #3: Covering Your Tracks and Planting False Leads
- Step #4: Creating Your New Identity
- Step #5: Finding Work And Building A New Life
- Step #6: Disappearing Mistakes To Avoid

By the end of this guide, you will know exactly what you need to do to vanish completely without leaving a trace of your footsteps. Remember, even if you're currently not planning on disappearing and are just reading this book for fun, the information you're about to learn could prove critical for the future.

Customer Reviews

I found it to be a very interesting book. I got the book out of curiosity and found it mentions many different things I would have never thought of. I don't know if I could just leave my family like that, but if it was necessary I would know what to do.

This book makes some very important points to consider: like if you just disappear law enforcement will be brought in to look for you!

It wasn't quite what I had expected, but it will do what it says.

If you want to disappear forever without leaving a trace, this book is a great place to start your research. I had never thought about how complicated disappearing was until after I read this book. Great guide!

The book is a great guide for someone looking to learn the intricacies of what it might take to disappear. This is a process that takes a lot of thought and effort. I enjoyed the book and would recommend it to others interested in learning about survival aspects.

I'm a sucker for at least trying to read it.
