PreSchool-Grade 1. A child tucked into bed delays going to sleep, needing reassurance of her mother's love. The youngster asks, "Would you still love me...if I were a big scary ape?" or "a super smelly skunk" or "a terrible meat-eating dinosaur," and the list continues. No matter what horrible creature is imagined, Mama says she will always love and care for her child. Warm pastel drawings sweetly illustrate the story; the imaginary creatures are appealing rather than frightening.

Reminiscent of Margaret Wise Brown's *The Runaway Bunny* (HarperCollins, 1942) and Kady Denton's *Would They Love a Lion?* (Kingfisher, 1995), this is a good choice for storytime or one-on-one sharing. I only give this 4 out of 5 stars because the item description claimed it was used-like new and it was a little roughed up around the spine, this could be from shipping. The inside looked mint though which is all that's really important! It was the story I remembered from my childhood and I'm happy I now have the book to share with my friends and family because it is such a cute story. The book and pages feel very similar to particle board so I'm fairly confident this book will handle years and years of usage they also have a kind of gloss too them so I'm sure if an accidental crayon comes in contact with the pages it should be easily removed. A lot more durable than paper!

This was my favorite book to read to both of my children when they were small. I absolutely love the message throughout the book - basically, the mother assures her child that she will love him no matter what he becomes. It's a beautiful, and funny, book. I buy it for everyone I know who has a baby, and they all say they love it, too. Great gift for new families!

The grandkids love it. I always give as baby gifts with Llama, Llama, Are you my Mama, Press Here by Herve Tuijlet, Goodnight Moon (Lap Edition Board Book), Brown Bear Brown Bear What do you see?, There is a Bird on Your Head, I broke my Trunk and We are in a Book, all 3 by Mo Willems, and 2 by James Dean, Pete the Cat I love My White Shoes, and Pete the Cat and his four Groovy Buttons. These make terrific shower gifts that will far outlast any other gift and will instill the love of reading. and bonding. New MOMS read to your infants, expectant Moms, read to your fetuses. They do recognize Mom's voice. Research proves this!.

Well, my preschool, through elementary- aged boys have enjoyed this book. It's unexpected and cute in a funny sort of way for children who are so interested in big, sometimes scary, or fearsome creatures. One of many that we'll read over and over. I guess that makes it a classic? This version is actually a board book, so I'm pretty sure it's missing a little bit of details from the original version we read 10 or so years ago, but still probably 90% the same?

This is a really cute book. I nicknamed my son stinky when he was born and he's now 7 so I got this book because I knew he would love it and he did and thought it was written for him. It also mentions a dinosaur which he is obsessed with so it was another plus. It's a really cute story about a mom loving her child no matter what.

I purchased this book to give to my daughter for my first grandbaby. We have loved this book since My daughter was a little girl, and lost it along with all of our other children's book in a house fire a few years ago. Now that she is all grown up and having her own child, we had no books from her childhood to pass down. "I Love You Stinky Face" was at the top of our list of books to buy for our new addition. It is a beautiful story of the unconditional love between a mother and her child. This book will be treasured in our family for generations.

My 2 and 5 year old both loved this book! My 2 year old asks me to read it every single night. Very sweet book about a mom and her child and how she will always love them. The pictures and story are very cute and funny. I highly recommend this book!

This is one of our very favorite books to give to new parents. We may still occasionally quote it, and our son is 13. He also insists that this is the best book and that we have to buy it for cousins and friends alike.
